

Contents

1. Dual-Process Theory and the Great Rationality Debate	3
<i>The Great Rationality Debate</i>	6
<i>Individual Differences in the Great Rationality Debate</i>	10
<i>Dual-Process Theory: The Current State of Play</i>	16
<i>Properties of Type 1 and Type 2 Processing</i>	19
<i>Dual-Process Theory and Human Goals: Implications for the Rationality Debate</i>	22
<i>The Rest of This Book: Complications in Dual-Process Theory and Their Implications for the Concepts of Rationality and Intelligence</i>	25
2. Differentiating the Algorithmic Mind and the Reflective Mind	29
<i>Unpacking Type 2 Functioning Using Individual Differences</i>	31
<i>Cognitive Ability and Thinking Dispositions Partition the Algorithmic and the Reflective Mind</i>	35
<i>Intelligence Tests and Critical Thinking Tests Partition the Algorithmic from the Reflective Mind</i>	39
<i>Thinking Dispositions as Independent Predictors of Rational Thought</i>	43
3. The Key Functions of the Reflective Mind and the Algorithmic Mind that Support Human Rationality	47
<i>So-Called “Executive Functioning” Measures Tap the Algorithmic Mind and Not the Reflective Mind</i>	56

4. The Tri-Process Model and Serial Associative Cognition	61
<i>The Cognitive Miser and Focal Bias</i>	65
<i>Converging Evidence in the Dual-Process Literature</i>	72
5. The Master Rationality Motive and the Origins of the Nonautonomous Mind	81
<i>Metarepresentation and Higher-Order Preferences</i>	81
<i>What Motivates the Search for Rational Integration?</i>	86
<i>The Master Rationality Motive as a Psychological Construct</i>	87
<i>Evolutionary Origins of the Master Rational Motive and Type 2 Processing</i>	90
6. A Taxonomy of Rational Thinking Problems	95
(Keith E. Stanovich and Richard F. West)	
<i>Dual-Process Theory and Knowledge Structures</i>	95
<i>The Preliminary Taxonomy</i>	98
<i>Heuristics and Biases Tasks in Terms of the Taxonomy</i>	104
<i>Multiply-Determined Problems of Rational Thought</i>	112
<i>Missing Input from the Autonomous Mind</i>	115
7. Intelligence as a Predictor of Performance on Heuristics and Biases Tasks	121
(Keith E. Stanovich and Richard F. West)	
<i>Intelligence and Classic Heuristics and Biases Effects</i>	125
<i>Belief Bias and Myside Bias</i>	135
<i>Why Thinking Biases Do and Do Not Associate with Cognitive Ability</i>	139
<i>Cognitive Decoupling, Mindware Gaps, and Override Detection in Heuristics and Biases Tasks</i>	145
8. Rationality and Intelligence: Empirical and Theoretical Relationships and Implications for the Great Rationality Debate	155
<i>Intelligence and Rationality Associations in Terms of the Taxonomy</i>	155
<i>Summary of the Relationships</i>	163
<i>Individual Differences, the Reflective Mind, and the Great Rationality Debate</i>	164
<i>Skepticism About Mindware-Caused Irrationalities</i>	170
9. The Social Implications of Separating the Concepts of Intelligence and Rationality	175
<i>Broad Versus Narrow Concepts of Intelligence</i>	175
<i>Intelligence Imperialism</i>	178

	<i>Intelligence Misidentified as Adaptation and the Deification of Intelligence</i>	183
	<i>Strategies for Cutting Intelligence Down to Size</i>	185
	<i>Society's Selection Mechanisms</i>	186
10.	The Assessment of Rational Thought (Keith E. Stanovich, Richard F. West, and Maggie E. Toplak)	191
	<i>A Framework for the Assessment of Rational Thinking</i>	191
	<i>Operationalizing the Components of Rational Thought</i>	194
	<i>The Future of Research on Individual Differences in Rational Thought</i>	245
