Introduction: The Complexity of Moral Cognition Requires Multiple and
Converging Levels of Analyses vii

I Evolution of Morality

- 1 **The Evolution of Morality: A Comparative Approach** 3
Laurent Prétôt and Sarah Brosnan
- 2 **Adaptationist Approaches to Moral Psychology** 19
Andrew W. Delton and Max M. Krasnow
- 3 **Partner Choice and the Evolution of a Contractualist Morality** 35
Nicolas Baumard and Mark Sheskin

II Motivations of Morality

- 4 **Is the Moral Brain Ever Dispassionate?** 51
Jesse Prinz
- 5 **Devoted Actors and the Moral Foundations of Intractable Intergroup
Conflict** 69
Scott Atran and Jeremy Ginges
- 6 **Why We Cooperate** 87
Jillian Jordan, Alexander Peysakhovich, and David G. Rand

III The Development of Morality

- 7 **The Infantile Origins of Our Moral Brains** 105
J. Kiley Hamlin

- 8 Mechanisms of Moral Development 123**
Joshua Rottman and Liane Young
- 9 The Neurocognitive Development of Moral Judgments: The Role of Executive Function 143**
Ayelet Lahat
- 10 Girl Uninterrupted: The Neural Basis of Moral Development among Adolescent Females 157**
Abigail A. Baird, and Emma V. Roellke
- IV The Affective and Social Neuroscience of Morality**
- 11 Neural Correlates of Human Morality: An Overview 183**
Ricardo de Oliveira-Souza, Roland Zahn, and Jorge Moll
- 12 The Cognitive Neuroscience of Moral Judgment and Decision Making 197**
Joshua D. Greene
- 13 Neuromodulators and the (In)stability of Moral Cognition 221**
Molly J. Crockett and Regina A. Rini
- V Psychopathic Immorality**
- 14 Immorality in the Adult Brain 239**
Rheanna J. Rimmel and Andrea L. Glenn
- 15 The Moral Brain: Psychopathology 253**
Caroline Moul, David Hawes, and Mark Dadds
- VI Considerations and Implications for Justice and Law**
- 16 Neuroscience versus Phenomenology and the Implications for Justice 267**
Thalia Wheatley
- 17 The Equivocal Relationship between Morality and Empathy 279**
Jean Decety and Jason M. Cowell
