Part I: Against acquaintance

1	Introduction: reference and singular thought	3
1.1	Preliminaries	3
1.2	Themes from Russell	4
1.3	Reference after Russell	8
1.4	Singular thought after Russell	15
1.5	Acquaintance after Russell	19
1.6	Should auld acquaintance be forgot?	25
1.7	Gameplan	35
2	A defense of liberalism	37
2.1	The spy argument	37
2.2	Acquaintance and attitude reports	40
2.3	Turning the tables	45
2.4	HARMONY, SUFFICIENCY, and impoverished cases	50
2.5	'Believing of'	53
2.6	The Neptune argument	56
2.7	The irrelevance of CONSTRAINT	61
2.8	Sources of confusion	64
2.9	Conditional reference fixers	68
3	Epistemic acquaintance	71
3.1	Knowing-which and discrimination	71
3.2	Evans on acquaintance	74
3.3	Objections	78
3.4	Knowledge of existence	83
3.5	Understanding and knowledge	85

Part II: Beyond acquaintance

4	From the specific to the singular	93
4.1	Indefinites: preliminary observations	93
4.2	Specificity: the bifurcated view	99
4.3	Interlude: presupposition	105
4.4	Specificity: the simple view	107

4.5 Interlude: covert domain restriction	117
4.6 Specificity as domain restriction	122
4.7 Singular restrictors	133
4.8 Acquaintance again	136
4.9 Coy and candid restrictions	138
4.10 Variant views	141
4.11 Specifics in attitude ascriptions	144
4.12 The representation requirement	151
5 What 'the'?	155
5.1 Three approaches to uniqueness	155
5.2 Existentialism	156
5.3 Exceptions to specificity?	168
5.4 Russellianism	175
5.5 Neo-Fregeanism	181
5.6 Three arguments for a neo-Fregean 'the'	190
5.7 Five arguments against a neo-Fregean 'the'	196
5.8 The upshot	202
6 Et tu, 'Brute'?	203
6.1 Demonstratives	203
6.2 Non-rigid uses	205
6.3 Salience	207
6.4 Modal themes	211
6.5 The view so far	218
6.6 Names	219
6.7 The predicate view: details	221
6.8 Two ineffective arguments	224
6.9 Calling and describing	227
6.10 Against the predicate view	233
6.11 Bare and bound?	235
6.12 Varieties of validity	239
6.13 Names: a tentative verdict	241
Afterword	243
