

CONTENTS

| | PAGE |
|--|------------|
| 1. Preliminary Orientation | 1 |
| a. The Relation of Philosophy to the Sciences | 1 |
| b. What is Metaphysics? | 7 |
| c. What is Ethics? | 12 |
| d. What is Esthetics? | 16 |
| e. What is Social Philosophy? | 19 |
| 2. Some Problems of Analytical Value Theory | 23 |
| a. The Method of Verification of Ethical Judgment | 23 |
| b. Moral Rules and Moral Principles | 26 |
| c. Are Ethical Predicates Definable? | 29 |
| d. The Naturalistic Analysis of Value | 35 |
| e. Ethical Relativism | 39 |
| f. Hedonism | 43 |
| g. Righteousness and Happiness | 52 |
| h. The "Free Will" Problem | 55 |
| 3. Universals and Particulars | 66 |
| 4. Nominalism and Realism | 77 |
| a. The Resemblance Theory and Aristotelian Realism | 77 |
| b. Platonism and Reification | 81 |
| c. Concepts and Images | 85 |
| d. Nominalism as a Program of Terminological Economy | 87 |
| 5. Sensationalism and Innate Ideas | 92 |
| 6. The Nature of Formal Discourse | 99 |
| 7. The Problem of Perception | 119 |
| a. Epistemological Dualism | 120 |
| b. Berkeley's Idealism | 126 |
| c. Phenomenalism | 132 |
| d. The Phenomenalist Analysis of the Distinction between Real and Illusory Perception | 139 |
| e. Skepticism of the Senses | 144 |

| | PAGE |
|--|------|
| 8. Empirical Knowledge and Certainty | 150 |
| 9. Probable Inference | 168 |
| a. Interpretations of Probability | 168 |
| b. The Justification of Induction | 181 |
| c. The Argument from Design | 197 |
| 10. The Analysis of Causality | 204 |
| 11. Scientific Explanations | 234 |
| 12. The Traditional Mind-Body Problem | 263 |
| a. Mind-Body Interaction | 263 |
| b. Psycho-Physical Parallelism and the Double Aspect Theory | 275 |
| c. Behaviorism and Physicalism | 283 |
| d. Are Disembodied Spirits Possible? | 298 |
| 13. The Analysis of Meaning | 304 |
| 14. Theories of Truth | 344 |
| a. The Semantic Conception of Truth | 345 |
| b. The Coherence Theory of Truth | 356 |
| c. In Which Sense are Logical Principles "True"? | 362 |
| d. Is Empirical Truth the Same as Probability? | 368 |
| e. The Pragmatist Theory of Truth | 372 |
| 15. The Problem of the Basis of Scientific Knowledge | 380 |
| a. Atomic Sentences | 380 |
| b. Logical Constructions | 382 |
| c. Intersubjective Basic Sentences | 397 |
| 16. Does Science have Metaphysical Presuppositions? | 402 |
| a. What is a "Presupposition"? | 402 |
| b. The Nature of Geometry and the Concept of Synthetic <i>A Priori</i> Knowledge | 414 |
| c. The Kantian Analysis of Physical Knowledge | 428 |
| d. Postulates of Induction | 434 |
| 17. The Nature of Logical Analysis | 445 |
| a. Are the Objects of Logical Analysis Words or Concepts? | 445 |
| b. The Paradox of Analysis | 448 |
| c. Is Logical Analysis a Species of Induction? | 455 |
| d. The <i>Salva Veritate</i> Test | 459 |
| e. Analysis and Intuition | 464 |
| f. Criteria of Adequacy | 472 |
