

CONTENTS

Foreword	vii
1. K. Ajdukiewicz (Warsaw, Poland): The Problem of Foundation	1
2. L. Kalmár (Szeged, Hungary): On the Problem of the Foundation of Our Knowledge	13
3. V. Kraft (Vienna, Austria): Die Begründung von Aussagen	21
4. W. C. Kneale (Oxford, England): The Distinction between the Empirical and the <i>A Priori</i>	27
5. R. M. Chisholm (Providence, U.S.A.): Self-Founding Statements and Beliefs	45
6. A. N. Prior (Manchester, England): The <i>Cogito</i> of Descartes and the Concept of Self-Confirmation	47
7. N. Łubnicki (Lublin, Poland): Du fondement ultime	57
8. M. Black (Ithaca, U.S.A.): The Justification of Logical Axioms	65
9. Б. Дянков (София, Болгария): Возможно-ли и в каком смысле следует говорить об онтологической модели обоснования первичных предложений?	73
10. J. Witt-Hansen (Copenhagen, Denmark): Two Methods of Justification and the Correspondence Principle	81
11. R. Sellars (Michigan, Canada): The Objective Import of Perceiving with Some Implications for Science	89
12. R. M. Chisholm (Providence, U.S.A.): The Foundation of Empirical Statements	111
13. Б. Кедров (Москва, СССР): К вопросу о логике научного исследования	121
14. М. Алексеев (Москва, СССР): Сущность обоснования предложений	133
15. D. Spassov (Sofia, Bulgaria): General Remarks on Foundation	141
16. J. Zelený, P. Materna (Praha, Czechoslovakia): Zur Marx' Auffassung der Begründung eines Satzes	149
17. P. Lorenzen (Kiel, West Germany): Über eine Definition des Begründungsbegriffes in der Philosophie der exakten Wissenschaften	157
18. С. Яновская (Москва, СССР): Проблемы введения и исключения абстракций более высоких (чем первый) порядков	171

19. J. Vuillemin (Clermont-Ferrand, France): Problèmes de validation dans les axiomatiques d'Euclide et de Zermelo	179
20. M. Lutman-Kokoszyńska (Wrocław, Poland): On Deduction	205
21. B. Petkantschin (Sofia, Bulgaria): Über die Begründung der mathematischen Sätze	211
22. H. J. Groenewold (Groningen, Netherlands): On Foundation of Elements of Physical Statements.	217
23. J.-L. Destouches (Paris, France): La synthèse inductive comme fondement des concepts et des énoncés primitifs d'une théorie physique	237
24. B. Juhos (Vienna, Austria): Logische Ordnungsformen als Grundlage der empirischen Erkenntnis	251
25. A. D. de Groot (Amsterdam, Netherlands): On the Foundation of Interpretative Statements	263
26. L. Apostel (Ghent, Belgium): Justification and Decision	273
27. K. Szaniawski (Warsaw, Poland): A Pragmatic Justification of Rules of Statistical Inference	301
28. J. Wilkinson (Sta Barbara, U.S.A.): The Grounding of Empirical Statements in Semantic Information Theory	311
29. P. Suppes (Stanford, U.S.A.): Towards a Behavioral Foundation of Mathematical Proofs	327
30. W. K. Estes (Bloomington, U.S.A.): Informational and Behavioral Approaches to Foundations of Scientific Statements	343
31. G. H. v. Wright (Helsingfors, Finland): The Foundation of Norms and Normative Statements	351
32. G. Frey (Stuttgart, West Germany): Imperativ-Kalküle	369
33. Ch. Perelman (Brussel, Belgium): Jugements de valeur, justification et argumentation.	385
34. M. Rieser (New York, U.S.A.): Subjective and Objective Elements in Linguistic Utterances	393
