## A Note to Volume 2 of the Paperback Edition

In the paperback edition of volume 2 of the Clarendon Edition of *A Treatise of Human Nature*, we correct some minor substantive errors in the 'Historical Account' of the *Treatise*, as well as errors in accidentals and page and section numbers in the editorial matter in that volume. Entries and sub-entries and page numbers have been added to the indexes. A revised list of all changes made to volume 2 since the first impression in 2007 may be found on the website of the McGill University David Hume Collection:
