

Andrea Iacona

# Logical Form

Between Logic and Natural Language

# Contents

<b>1</b>	<b>The Early History of Logical Form .....</b>	<b>1</b>
1.1	Preamble .....	1
1.2	Aristotle .....	2
1.3	The Stoics .....	4
1.4	Logic in the Middle Ages .....	6
1.5	Leibniz's Dream .....	8
<b>2</b>	<b>The Ideal of Logical Perfection .....</b>	<b>11</b>
2.1	Frege .....	11
2.2	Russell .....	16
2.3	Wittgenstein .....	19
2.4	A Logically Perfect Language .....	22
2.5	The Old Conception of Logical Form .....	24
<b>3</b>	<b>Formal Languages and Natural Languages .....</b>	<b>27</b>
3.1	Tarski's Method .....	27
3.2	Davidson's Program .....	30
3.3	Montague Semantics .....	32
3.4	The Current Conception of Logical Form .....	34
3.5	Two Open Questions .....	37
<b>4</b>	<b>Logical Form and Syntactic Structure .....</b>	<b>39</b>
4.1	The Uniqueness Thesis .....	39
4.2	Intrinsicalism .....	40
4.3	LF .....	42
4.4	Semantic Structure .....	44
4.5	Relationality in Formal Explanation .....	46
4.6	Further Clarifications .....	50
<b>5</b>	<b>Logical Form and Truth Conditions .....</b>	<b>53</b>
5.1	The Truth-Conditional Notion .....	53
5.2	Truth Conditions and Propositions .....	55
5.3	Adequate Formalization .....	58

5.4	A Truth-Conditional Account .....	61
5.5	Logical Form as a Property of Propositions .....	63
5.6	Extrinsicalism .....	66
<b>6</b>	<b>Logical Knowledge vs Knowledge of Logical Form .....</b>	<b>69</b>
6.1	Preliminaries .....	69
6.2	Logical Identity and Logical Distinctness .....	70
6.3	Distinct Objects Must Be Denoted by Distinct Names.....	71
6.4	Distinct Names Must Denote Distinct Objects .....	74
6.5	Logical Knowledge .....	80
6.6	Linguistic Competence and Rationality .....	81
<b>7</b>	<b>Validity .....</b>	<b>85</b>
7.1	Interpretations of Arguments .....	85
7.2	Validity and Formal Validity.....	87
7.3	The Sorites .....	90
7.4	The Fallacy of Equivocation.....	92
7.5	Context-Sensitive Arguments .....	95
<b>8</b>	<b>Quantified Sentences .....</b>	<b>99</b>
8.1	Two Questions About Quantified Sentences .....	99
8.2	Quantifiers .....	102
8.3	Meaning and Truth Conditions .....	104
8.4	The Issue of First Order Definability.....	105
8.5	Two Kinds of Formal Variation .....	108
8.6	Conclusion .....	110
<b>9</b>	<b>Further Issues Concerning Quantification .....</b>	<b>111</b>
9.1	Two Kinds of Indeterminacy .....	111
9.2	Precisifications of Quantifier Expressions .....	113
9.3	First Order Definability Again.....	117
9.4	Logicality .....	120
9.5	Quantification Over Absolutely Everything .....	123
9.6	Unrestricted Quantification and Precision .....	124
	<b>Afterword .....</b>	<b>127</b>
