

Kurt Gödel  
COLLECTED WORKS

*Volume II*  
*Publications 1938–1974*

EDITED BY  
Solomon Feferman  
(Editor-in-Chief)  
John W. Dawson, Jr.  
Stephen C. Kleene  
Gregory H. Moore  
Robert M. Solovay  
Jean van Heijenoort

*Prepared under the auspices of the  
Association for Symbolic Logic*

OXFORD  
UNIVERSITY PRESS

## Volume II

|   |     |
|---|-----|
| List of illustrations . . . . .   | xi  |
| <i>Gödel 1938</i> : Introductory note to <i>1938, 1939, 1939a</i> and <i>1940</i> ,<br>by Robert M. Solovay . . . . .                     | 1   |
| The consistency of the axiom of choice and of the generalized<br>continuum hypothesis . . . . .   | 26  |
| <i>Gödel 1939</i> : (See introductory note under <i>Gödel 1938</i> .)   |     |
| The consistency of the generalized continuum hypothesis . . . . .   | 27  |
| <i>Gödel 1939a</i> : (See introductory note under <i>Gödel 1938</i> .)  |     |
| Consistency proof for the generalized continuum hypothesis . . . . .  | 28  |
| <i>Gödel 1940</i> : (See introductory note under <i>Gödel 1938</i> .)   |     |
| <i>The consistency of the axiom of choice and of the generalized<br/>    continuum hypothesis with the axioms of set theory</i> . . . . . | 33  |
| <i>Gödel 1944</i> : Introductory note to <i>1944</i> , by Charles Parsons . . . . .   | 102 |
| Russell's mathematical logic . . . . .  | 119 |
| <i>Gödel 1946</i> : Introductory note to <i>1946</i> , by Charles Parsons . . . . .   | 144 |
| Remarks before the Princeton bicentennial conference<br>on problems in mathematics . . . . .  | 150 |
| <i>Gödel 1947</i> : Introductory note to <i>1947</i> and <i>1964</i> ,<br>by Gregory H. Moore . . . . .                                   | 154 |
| What is Cantor's continuum problem? . . . . .   | 176 |
| <i>Gödel 1949</i> : Introductory note to <i>1949</i> and <i>1952</i> ,<br>by S. W. Hawking . . . . .                                      | 189 |
| An example of a new type of cosmological solutions<br>of Einstein's field equations of gravitation . . . . .                              | 190 |
| <i>Gödel 1949a</i> : Introductory note to <i>1949a</i> , by Howard Stein . . . . .  | 199 |
| A remark about the relationship between relativity theory<br>and idealistic philosophy . . . . .  | 202 |
| <i>Gödel 1952</i> : (See introductory note under <i>Gödel 1949</i> .)   |     |
| Rotating universes in general relativity theory . . . . .   | 208 |

|   |     |
|---|-----|
| <i>Gödel 1958</i> : Introductory note to <i>1958</i> and <i>1972</i> ,<br>by A.S. Troelstra . . . . .                           | 217 |
| Über eine bisher noch nicht benützte Erweiterung<br>des finiten Standpunktes . . . . .  | 240 |
| On a hitherto unutilized extension of the finitary standpoint . .   | 241 |
| <i>Gödel 1962</i> : Postscript to <i>Spector 1962</i> . . . . .   | 253 |
| <i>Gödel 1964</i> : (See introductory note under <i>Gödel 1947</i> .)   |     |
| What is Cantor's continuum problem? . . . . .   | 254 |
| <i>Gödel 1972</i> : (See introductory note under <i>Gödel 1958</i> .)   |     |
| On an extension of finitary mathematics which has not<br>yet been used . . . . .  | 271 |
| <i>Gödel 1972a</i> : Introductory note to <i>1972a</i> , by Solomon Feferman,<br>Robert M. Solovay and Judson C. Webb . . . . . | 281 |
| Some remarks on the undecidability results . . . . .  | 305 |
| <i>Gödel 1974</i> : Introductory note to <i>1974</i> , by Jens Erik Fenstad . .   | 307 |
| [[Remark on non-standard analysis]] . . . . .   | 311 |
| Textual notes . . . . .   | 313 |
| References . . . . .  | 327 |
| Addenda and corrigenda to Volume I . . . . .  | 389 |
| Index . . . . .   | 393 |
