# Contents

Introduction . . . . .	1
1 Constructive Type Theory:	
Foundation and Formalization . . . . .	7
1.1 Philosophical Foundation . . . . .	7
1.2 Basic Epistemic Notions . . . . .	8
1.3 Types . . . . .	11
1.3.1 Constructive Notion of Type . . . . .	11
1.3.2 Definition . . . . .	16
1.3.3 Conceptual Priority . . . . .	18
1.3.4 Method . . . . .	20
1.4 Identity . . . . .	25
1.4.1 Definitional Identity vs. Syntactically Induced Identity . . . . .	27
1.4.2 Identity as Theoretical Notion . . . . .	29
1.5 Formal Analysis of Types and Judgements . . . . .	31
1.5.1 Formalizing the Forms of Judgement . . . . .	31
1.5.2 Formalizing Equality Rules . . . . .	33
1.5.3 Categories . . . . .	34
1.5.4 Type <i>set</i> . . . . .	37
1.5.5 Type <i>prop</i> . . . . .	38
1.5.6 The Notion of Proposition for CTT . . . . .	40
1.5.7 Propositions as Sets . . . . .	46
1.6 Dependent Objects: Hypothetical Judgements . . . . .	47
1.6.1 Judgements Depending on One Assumption . . . . .	50
1.6.2 Judgements Depending on More Assumptions . . . . .	51
1.7 Introducing Functions . . . . .	52
1.8 Computational Rules . . . . .	54
1.8.1 The System of Rules and Some Examples for <i>set</i> and <i>prop</i> . . . . .	55
1.8.2 Rules for the type <i>Func</i> . . . . .	57
1.9 Introducing Information . . . . .	60

2	Analyticity and Information . . . . .	63
2.1	At the Origin of the Problem . . . . .	64
2.1.1	The Modern Origin of Analyticity: Kant . . . . .	64
2.1.2	Elements of the Bolzanian <i>Doctrine of Science</i> . . . . .	70
2.1.3	A New Concept of Analyticity (Against the Critical View) . . . . .	73
2.1.4	Analyticity in Question: The Possibility of Knowledge . . . . .	77
2.2	Analysis and Synthesis . . . . .	84
2.2.1	Act and Content: A Foundational Distinction . . . . .	87
2.2.2	Content and Meaning . . . . .	88
2.2.3	Analyticity Reconsidered: From Meaning to Information . . . . .	93
2.2.4	Rejecting the Analytic/Synthetic Distinction: Quine . . . . .	95
2.2.5	Towards a Constructive Notion of Analyticity . . . . .	99
2.3	Informativeness of Derivations . . . . .	101
2.3.1	Individuals and Degrees: Computing Information of Sentences . . . . .	103
2.4	Different Notions of Information . . . . .	109
2.4.1	Conceptual vs. Contentual Information . . . . .	111
2.4.2	Surface Information: Probability and Possible Worlds . . . . .	111
2.4.3	Increasing Logical Information: Depth Information . . . . .	113
2.5	Basic Elements of a Knowledge System . . . . .	115
2.5.1	Reconsidering the Semantic Approach . . . . .	115
2.5.2	Recollecting Perspectives on Information . . . . .	119
2.5.3	Knowledge: What, That, How . . . . .	120
3	Formal Representation of the Notion of Information . . . . .	125
3.1	CTT as the General Framework: Informal Description . . . . .	125
3.1.1	Formalization of Knowledge and Information . . . . .	129
3.1.2	Contexts: Formal Explanation . . . . .	130
3.2	Representation of Knowledge and Information . . . . .	135
3.2.1	Presuppositions . . . . .	136
3.2.2	Assumptions . . . . .	139
3.2.3	Types and Meaning Declarations . . . . .	141
3.2.4	Truth and the Role of Assumptions . . . . .	144
3.2.5	Defining Information . . . . .	148
3.3	Contexts as Constructive Possible Worlds . . . . .	150
3.3.1	Introducing Orderings: Kripke Models . . . . .	152
3.4	The Knowledge Framework . . . . .	154
3.4.1	Updating Information, Extending Knowledge . . . . .	154
3.4.2	The Structure of Knowledge . . . . .	158
4	Constructive Philosophy of Information . . . . .	165
4.1	An Extension for the Constructive Epistemology . . . . .	165

4.2	Information and Mathematics . . . . .	168
4.2.1	From Analytic Method to the Analyticity of Logic . . . . .	170
4.3	The Role of Constructions . . . . .	171
4.4	Types and Categories of Information . . . . .	175
4.4.1	Overview on Presuppositions Theory and Dynamic Logics . . . . .	175
4.4.2	Declaring and Explaining Meanings . . . . .	179
4.4.3	Meaning and Predication . . . . .	184
4.5	Information and Logical Knowledge . . . . .	188
4.6	Final Epistemic Foundation for Information . . . . .	191
	Bibliography . . . . .	195
	Index . . . . .	207
