PREFACE	xi
ACKNOWLEDGMENTS	xiii

## *Part I*

### INTRODUCTION

1. <i>What Is Artificial Intelligence?</i>	3
PROGRAMS TELL COMPUTERS WHAT TO DO	
LANGUAGES THE COMPUTER UNDERSTANDS	
COMPUTERS MANIPULATE SYMBOLS	

## *Part II*

### THE PERSONAL DIMENSION

2. <i>Artificial Neurosis</i>	21
OUTLINE DESCRIPTION OF A NEUROTIC PROGRAM	
DEFENSE MECHANISMS THAT DISTORT BELIEFS	
LATER IMPROVEMENTS	
3. <i>Function and Failure in the Neurotic Program</i>	34
DATA USED BY THE NEUROTIC PROGRAM	
HOW THE NEUROTIC PROGRAM WORKS	
FAILINGS OF THE NEUROTIC PROGRAM	
4. <i>Personal Politics and Ideology Machines</i>	64
SIMULATION OF HOT COGNITION	
THE IDEOLOGY MACHINE	
A STRUCTURAL THEORY OF BELIEF	
BETRAYAL AND OTHER THEMES	
SCRIPTS AND SCREENPLAYS	

## Part III

## LANGUAGE AND UNDERSTANDING

- |    |                                      |     |
|----|--------------------------------------|-----|
| 5. | <i>Responding to Language</i>        | 95  |
|    | PROGRAMS THAT PASS AS PERSONS        |     |
|    | HOW PARRY MANAGES IT                 |     |
|    | HOW ELIZA DIFFERS FROM ELIZA         |     |
| 6. | <i>Intelligence in Understanding</i> | 112 |
|    | CONVERSATION WITH SHRDLU             |     |
|    | HETERARCHICAL THINKING               |     |
|    | WHAT SHRDLU KNOWS                    |     |
|    | ON UNDERSTANDING STORIES             |     |
| 7. | <i>Sense and Semantics</i>           | 147 |
|    | KNOWING WHAT'S GOING TO BE SAID      |     |
|    | PROGRAMMING CONCEPTUAL DEPENDENCIES  |     |
|    | MACHINE TRANSLATION                  |     |
|    | LANGUAGE WITHOUT LOGIC               |     |

## Part IV

## THE VISUAL WORLD

- |    |                                       |     |
|----|---------------------------------------|-----|
| 8. | <i>Adding the Third Dimension</i>     | 179 |
|    | MODELS, CUES, AND INTERPRETATION      |     |
|    | HOW SEE SEES                          |     |
|    | MAKING SENSE OF PICTURES              |     |
| 9. | <i>Glimpses of the Real World</i>     | 207 |
|    | HALLUCINATION IN THE SERVICE OF TRUTH |     |
|    | MUFFLING THE COMBINATORIAL EXPLOSION  |     |
|    | OF MEN AND MOVEMENT                   |     |

## Part V

## NEW THOUGHTS FROM OLD

- |     |                     |     |
|-----|---------------------|-----|
| 10. | <i>Learning</i>     | 247 |
|     | LEARNING BY EXAMPLE |     |

	LEARNING BY BEING TOLD	
	LEARNING BY DOING	
11.	<i>Creativity</i>	298
	CREATING WITHIN A CONVENTION	
	FICTION AND FRAMES	
	ANALOGICAL THINKING	
	CHANGING REPRESENTATIONS	
12.	<i>Problem Solving</i>	345
	THE WEAKNESS OF BRUTE FORCE	
	PLANS FOR PROBLEMS	
	PROBLEMS AND PROGRAMMING LANGUAGES	

*Part VI*

THE RELEVANCE OF ARTIFICIAL INTELLIGENCE

13.	<i>Psychological Implications</i>	393
	HUMANISM AND MECHANISM IN PSYCHOLOGY	
	THEORIES AND TESTABILITY	
	MACHINE VISION AND HUMAN SIGHT	
14.	<i>Philosophical Issues</i>	418
	ARTIFICIAL INTELLIGENCE: A CONTRADICTION IN TERMS?	
	MIND, MECHANISM, AND MACHINES	
	CAN MACHINE INTELLIGENCE BE ACHIEVED?	
15.	<i>Social Significance</i>	445
	PROGRAMS IN PROSPECT	
	SELVES AND SOCIETY	
	PRECAUTIONARY MEASURES	
	BIBLIOGRAPHY	475
	NOTES	495
	INDEX	529
