

INDICE

Presentazione	V
Elenco dei partecipanti	IX
Avvertenza	XI
Indice	XIII

Relazioni

E. Börger, <i>Spektralproblem and completeness of logical decision problems</i>	3
C. Cellucci, <i>Weight of reductions in the typed lambda calculus</i>	7
U. Felgner, <i>The classification of all quantifier-eliminable F C-groups</i>	27
J.-Y. Girard, <i>The skeleton of a dilator</i>	35
G. Lolli, <i>Abstract notions and length of proofs</i>	51
R. Magari, <i>Sviluppi recenti delle algebre diagonalizzabili</i>	63
A. Marcja, <i>On some connections between Boolean algebras and model theory</i>	69
P. Martin-Löf, <i>Unifying Scott's theory of domains for denotational semantics and intuitionistic type theory</i>	79
D. Mundici, <i>Algebraic many-valued logic and models of physical systems</i>	83
H. Schwichtenberg, <i>A normal form for natural deductions in a type theory with realizing terms</i>	95
M. Servi, <i>Some topics in categorial semantics (Categories and algebraic structures)</i>	139

Comunicazioni

V.M. Abrusci, <i>Well-foundedness, Goodstein's sequences, dilators</i>	157
F. Arzarello, <i>The role of disproofs and discontinuity in constructive mathematics</i>	163
C. Böhm, M. Dezani Ciancaglini, <i>Combinatory logic as monoids</i>	169
A. Cantini, <i>On the proof theory of weak König's Lemma</i>	175

A. Emiliani, <i>Logica bivalente e logiche con lacune nei valori di verità</i>	179
G. Fischer Servi, <i>Some metatheoretical properties of bimodal calculi</i>	185
G. Longo, E. Moggi, <i>Types, computations and categories</i>	187
P. Minari, <i>Disjunction and existence properties in intermediate predicate logics</i>	199
F. Parlamento, <i>Reflection and induction principles relative to primitive recursive arithmetic</i>	205
C. Pizzi, <i>A note on Stalnaker's thesis and Lewis' triviality result</i>	211
A. Vincenzi, <i>A logical analysis of experimental results</i>	215
