Preface and Acknowledgments	ix
Part I Substance	
Introduction: The four problems of substance	3
Individuation	12
1 <i>Substance and qualities</i>	12
<i>Ordinal properties</i>	15
<i>Positional properties</i>	17
<i>The elimination of singular terms</i>	20
<i>The identity of indiscernibles</i>	24
<i>Position as substance</i>	28
2 Things	33
<i>Theories of reference</i>	33
<i>Existence and indication</i>	37
<i>The general idea of a thing</i>	41
<i>Matter and extension</i>	46
<i>Nouns and adjectives</i>	53
3 Identity	57
<i>Identity and the necessity of continuants</i>	57
<i>Substance as identifier</i>	61
<i>Spatial continuity</i>	66
<i>The mutual dependence of things and places</i>	71
<i>Non-temporal identity</i>	75
4 Ultimates	81
<i>Eternal things</i>	81
<i>Atoms and infinity</i>	84
<i>Personal identity</i>	88
<i>The soul and personality</i>	92

THE NATURE OF THINGS

<i>Ownership and the subject of experience</i>	97
<i>Two conceptions of personality</i>	103

Part II Knowledge

Introduction: Knowledge as a system	109
5 Intuition	119
<i>The regress of justification</i>	119
<i>The concept of intuition</i>	123
<i>Ostensive statements</i>	126
<i>Innate ideas</i>	130
<i>Basic statements</i>	134
<i>The correspondence theory</i>	139
6 Certainty	143
<i>The concept of certainty</i>	143
<i>Scepticism and fallibilism</i>	149
<i>Two arguments for certainty</i>	155
<i>Incorrigibility and language</i>	161
<i>The falsification of sense-statements</i>	166
7 Perception	172
<i>Theories of perception</i>	172
<i>Illusions and appearances</i>	177
<i>Certainty and inference</i>	184
<i>Science and perception: space-gap and time-gap</i>	194
<i>Secondary qualities and the fine structure of matter</i>	202
8 Coherence	208
<i>Against foundations</i>	208
<i>The coherence theory</i>	213
<i>Peirce on intuition and inquiry</i>	218
<i>Popper's theory of knowledge</i>	223

Part III Ideas

Introduction: Metaphysics	235
9 Essence	252
<i>Abstract reference</i>	252
<i>Universals</i>	257
<i>Nominalism</i>	259
<i>Natural classes</i>	263
<i>Necessary truth</i>	265
<i>Tautologies and convention</i>	270
<i>Logical truths</i>	276

CONTENTS

10	Theory	282
	<i>The nature of science</i>	282
	<i>Positivism and realism</i>	288
	<i>Critique of positivism</i>	294
	<i>Observability</i>	300
	<i>Causal connections</i>	307
11	Mind	314
	<i>Dualism</i>	314
	<i>Problems of dualism</i>	319
	<i>Behaviourism</i>	322
	<i>Materialism</i>	330
	<i>The mind and space</i>	334
	<i>Consciousness</i>	337
12	Value	351
	<i>Fact, value and antinaturalism</i>	351
	<i>The practicality of value</i>	355
	<i>Refutation of noncognitivism</i>	362
	<i>Action, value and desire</i>	366
	<i>The nature of morality</i>	374
	Bibliography	381
	Index	387
