

CONTENTS

Introduction	1
1 From Atoms to Life: Galactic Ecology	7
2 The Cosmic Scene: Expanding Horizons	31
3 Pregalactic History – the Clinching Evidence	53
4 The Gravitational Depths	67
5 Black Holes: Gateways to New Physics	87
6 Image and Substance: Galaxies and Dark Matter	107
7 From Primordial Ripples to Cosmic Structures	123
8 Omega and Lambda	143
9 Back to ‘The Beginning’	163
10 Inflation and the Multiverse	177
11 Exotic Relics and Missing Links	187
12 Towards Infinity: the Far Future	203
13 Time in Other Universes	221
14 ‘Coincidences’ and the Ecology of Universes	235
15 Anthropic Reasoning – Principled and Unprincipled	253
Further Reading	270
Index	272
