

CONTENTS

VOLUME I

HISTORICAL DEVELOPMENT

	PAGE
PREFACE	IX
Chap. I. INTRODUCTORY, CLASSICAL LOGIC, ALGEBRA OF LOGIC, AND LOGISTICS	1
Chap. II. THE DEVELOPMENT OF FORMAL LOGIC IN ANCIENT AND MEDIÆVAL TIMES. — CLASSICAL LOGIC.....	32
Chap. III. THE DEVELOPMENT OF FORMAL LOGIC IN MODERN TIMES. — THE ALGEBRA OF LOGIC.....	61
Chap. IV. THE DEVELOPMENT OF FORMAL LOGIC IN RECENT TIMES. — LOGISTICS.....	145

VOLUME II

SYSTEMATIC EXPOSITION

Chap. V. OUTLINE OF CLASSICAL LOGIC	1
A. The Doctrine of Terms	3
B. The Doctrine of Propositions	9
C. The Doctrine of Inferences	15
Chap. VI. OUTLINE OF THE ALGEBRA OF LOGIC	41
A. Introductory remarks concerning the primitive ideas and primitive propositions of the Algebra of Logic, and possible interpretations of the same	42
B. Elementary Section.—The principal theorems	56
C. The Logical Functions and their development	78
D. The Logical Equations	89
E. Logical Inequalities	107
F. The Calculus of Propositions	112
G. The Calculus of Relations	115
H. The relation between Algebra of Logic and Classical Formal Logic	124
I. The relation between Algebra of Logic and Logistics	137

XIV

	PAGE
Chap. VII. OUTLINE OF LOGISTICS	145
A. The Elementary Theory of Deduction	149
B. The Generalised Theory of Deduction	172
C. The Theory of Descriptions	181
D. The Theory of Classes	183
E. The Theory of Relations	190
F. The Theory of Descriptive Relations	194
G. The Theory of Products and Sums of Classes	205
Chap. VIII. CONTINUATION: THE LOGISTIC DEDUCTION OF MATHEMATICS	209

VOLUME III

DISCUSSION AND CRITICISM

Chap. IX. SUMMARY OF THE VIEWS OF MODERN MATHEMATICIANS AS TO THE FOUNDATIONS OF MATHEMATICS	1
A. Foundations and Systematisation of Geometry	1
B. The Arithmetisation of Mathematics, and the Theory of Mani- folds	18
C. Foundations of Arithmetic and Analysis	44
Chap. X. CRITICAL EXAMINATION OF THE LOGISTIC THEORY OF MATHEMATICS	57
A. Natural Numbers	58
B. Infinite Numbers	73
C. Limit, Continuity, Function, and Space	85
Chap. XI. THE RELATION BETWEEN LOGISTICS AND MATHEMATICS, WITH SPECIAL REGARD TO METHODOLOGICAL QUESTIONS	101
A. The Mathematical Proof	103
B. Discovery and Proof	122
C. Logistics and Mathematics	134
D. The Genetic, the Axiomatic and the Logistic Method	141
Chap. XII. THE LOGICAL-MATHEMATICAL PARADOXES AND THE THEORY OF TYPES	161
A. The Paradoxes	162
B. Main Features of the Theory of Types	168
C. The Theory of Types considered	189
Chap. XIII. THE REAL PRESUPPOSITIONS OF FORMAL LOGIC, ITS AIM AND MATERIAL	201
A. Introductory Remarks on the Subject, Aim and Method of For- mal Logic	202
B. The Material of Formal Logic	208
Chap. XIV. ANALYSIS AND SYMBOLISATION OF LOGICAL FORMS	242
A. Analysis of the Logical Forms	243
B. Symbolisation of the Logical Forms	263

	PAGE
Chap. XV. THE IDEAL PRESUPPOSITIONS OF FORMAL LOGIC	276
Chap. XVI. SUMMARY AND CONCLUSION	294
INDEX OF PROPER NAMES	299
INDEX OF TERMS	306
