

# Contents

To the teacher *xii*

To the student *xiii*

Introduction *1*

1 How we know what we know and how we know  
we know *3*

Answering our questions

Consulting an authority as a way of knowing

Research as a way of knowing

Questions for review

2 Research as a way of knowing *11*

Research as a process

Research as a discipline

Theory and data

Questions for review

Phase 1: Essential first steps *27*

3 Selecting a problem *29*

Starting points

Narrowing and clarifying the problem

Stating the problem

Summary

Questions for review

4 Selecting variables *50*

Concepts and variables

Finding variables for concepts: hypotheses

Finding variables for concepts: research objectives

The question of validity

An overview of the research process

Questions for review

5 Finding a variable's measurements *64*

The logic of measurement

Measurement in the social and behavioural sciences

Using observation to measure variables

Using interview schedules and questionnaires to  
measure variables

Examining records to measure variables

Validity

Reliability

Summary

Questions for review

6 Selecting a research design *104*

1 The case study

2 The longitudinal study

3 The comparison

4 The longitudinal comparison

5 The experiment

How do you choose a research design?

Controlling for the influence of other variables

Questions for review

7 Selecting a sample *134*

How to select a sample

Types of sampling procedure

Determining sample size

Summary

Questions for review

Phase 2: Data collection *159*

8 Collecting data *161*

Words to wise researchers

The ethics of research

Attention to detail

Questions for review

9 Summarizing and presenting data *173*

Categories

Tables

Graphs

Means or averages

Summary

Questions for review

Phase 3: Analysis and interpretation	199
10 Drawing conclusions	201
What did you ask?	
What did you find?	
What exactly do you conclude?	
To whom do your conclusions apply?	
Questions for review	
11 Writing up your research	215
Before writing	
Hints on style	
Format	
After you have finished writing	
Appendix A table of random numbers	221
Index	223
