INTRODUCTION

	<i>page</i>
§1 <i>Historical Background</i>	1
§2 <i>The Need for a Logic of Significance</i>	5
§3 <i>Nonsignificance, Falsity and The Ungrammatical</i>	8
§4 <i>The Proposed Logic</i>	15

PART I

CONTEXT LOGIC

CHAPTER 1 THE SEMANTIC THEORY

1.1 Initial Problems	21
1.2 Sentences and their Use	23
1.3 True and False Sentences	24
1.4 Significant and Nonsignificant Sentences	29
1.5 Incomplete Sentences	32
1.6 Comparable Semantic Values	34
1.7 The Meaning of Sentences	35
§1 <i>The Background Language</i>	35
§2 <i>The Context</i>	39
1.8 Criteria of Nonsignificance	42

CHAPTER 2 ELEMENTS OF THE SENTENTIAL THEORY

2.1 Sentential Variables and Constants	44
2.2 Connectives and Semi-well-formed Formulae	46
2.3 Context Variables and Constants	47
2.4 The Sentential Quotation Function	49
2.5 The Relation between Sentences and Statements	54

2.6	The Logic of Statements, SL	62
2.7	The Logic of Statement-Yielding Sentences, RSL	68
2.8	Extended Statement Logic, ESL	73
2.9	The Basic Well-formed Formulae of Context Logic, CL	76
2.10	The Nature of the Basic Formulae	79
2.11	The Formal Basis of CL	81
2.12	Properties of Sentences	90
2.13	The Statement-Yielding Relation, Statement Identity and the Statement Function	92
2.14	Truth and Falsity	104
2.15	The Valuation Function and the Derived Sentential Range	110
2.16	The Reduced Sentential Range	117
2.17	Strong Extensional Equivalence	118
2.18	Further Developments	119
CHAPTER 3 ELEMENTS OF THE PREDICATE AND QUANTIFICATION THEORY		
3.1	Syntactical and Semantical Preliminaries	120
3.2	Constants, Subjects and Predicates	123
3.3	Place-holders, Arguments, Parameters and Variables: Their Values and Ranges	134
3.4	Operators: Quantifiers and Descriptions	146
3.5	The Syntax of Context Logic, and Identity	152
3.6	Aboutness and Items, and other Contractions	172
3.7	Predicates, Properties and Universals	191
3.8	Derived Ranges and Significance Essentialism	200
	§1 <i>Significance Ranges</i>	201
	§2 <i>Truth and Falsity Ranges</i>	204
	§3 <i>Secondary Item Ranges</i>	205
	§4 <i>Significance Essentialism</i>	208
3.9	Separating Incompleteness from the Varieties of Nonsense	212

PART II

THE PRINCIPLES OF SIGNIFICANCE

CHAPTER 4 TOWARDS A LOGIC OF SIGNIFICANCE

4.1 The Method to be Adopted	219
4.2 The Standard Method	223
4.3 Deficiencies of the Standard Method	225
4.4 Ideal Languages	231
4.5 The Scope of Logic and the Anti-Logic Campaign	234
4.6 The Irreducibility of Nonsignificance	237
4.7 Degrees of Significance	246
4.8 Conventionalist and Contingency Objections	248

CHAPTER 5 SENTENTIAL SIGNIFICANCE LOGICS I:
THE MATRIX APPROACH

5.1 Extensional Connectives	256
5.2 Extended Classical Connectives	258
5.3 Classical Significance Connectives	260
5.4 Strong Regular Significance Connectives	265
5.5 Designated Values: S and C Logics	273
5.6 The Problem of Consistency for Matrix Logics	276
5.7 Sorted Variables	293
5.8 Stage 0: The Logics S_0 and C_0	295
5.9 Stage 1: The Logics S_1 and C_1	305
5.10 Stage 2: The Logics S_2 and C_2	312
5.11 Stage 3: The Logics S_3 and C_3	323
5.12 Stage 4: Alternative Interpretations of S_3 and C_3 , and the 4-Logics	335
5.13 Stage 5: The Logics S_5 and C_5	345
5.14 Stage 6: The Logics S_6 and C_6	355

CHAPTER 6 SENTENTIAL SIGNIFICANCE LOGICS II:
THE AXIOMATIC APPROACH

6.1 Stage 0: Axiomatic Formulations of 0-Systems	368
6.2 Stage 1: Axiomatic Formulations of 1-Systems	373
6.3 Stage 2: Axiomatic Formulations of 2-Systems	391
6.4 Stage 3: Axiomatic Formulations of 3-Systems	406
6.5 Stage 4: Axiomatic Formulations of 4-Systems	409
6.6 Stage 5: Axiomatic Formulations of 5-Systems	413
6.7 Stage 6: Axiomatic Formulations of 6-Systems	415

CHAPTER 7 INTENSIONAL AND QUANTIFIED SIGNIFICANCE LOGICS

7.1 Extending Sentential Significance Logics	431
7.2 Intensional Superstructures	435
§1 <i>Inadequacies of Extensional Significance Logics: Non-value-functional Connectives</i>	435
§2 <i>Set-up and Situational Semantics</i>	442
§3 <i>Accounting for Specific Properties of Intensional Connectives</i>	448
§4 <i>Multiply Modal Significance Logics</i>	452
§5 <i>Soundness and Completeness Theorems</i>	457
§6 <i>Decidability</i>	461
§7 <i>Generalizations, and the Intensionality of Connectives</i>	463
§8 <i>The Context Interpretation of Set-ups and the Addition of Context</i>	466
7.3 Quantified Significance Logics: the Interpretation of Quantifiers	469
7.4 Kinds of Quantified Significance Logics	475
7.5 On the Quantification Logic of <i>Principia Mathematica</i>	477
§1 <i>The Logic PM_1</i>	479
§2 <i>The Logic PM_2</i>	481
§3 <i>The Criteria of Significance in Principia Mathematica</i>	482
§4 <i>A Significance Semantics for PM_2</i>	483
§5 <i>The Logic PS_1</i>	485
7.6 Many-sorted Significance Logics	485
7.7 The Quantificational System QS_6	493
§1 <i>The Syntax and Contractual Semantics</i>	
§2 <i>The Postulational Theory</i>	496

§3	<i>Skolem-Löwenheim and Completeness Theorems</i>	502
§4	<i>Compatibility and Interpolation Theorems</i>	510
§5	<i>Generalized Quantified Significance Theories</i>	517
7.8	Quantification Logics with Alternative Sentential Bases	518
§1	<i>The Quantification Logic QS_4</i>	518
§2	<i>The Restricted Quantification Logics QS_5 and QS_3</i>	520
§3	<i>The Restricted Quantification Logic QS_2</i>	522
§4	<i>The Quantification Logic QL with alternative quantifiers</i>	525
7.9	Developments of Quantified Significance Logics	528
§1	<i>SA, a Significance Arithmetic; and the Theory of Partial Recursive Functions</i>	528
§2	<i>Significant Subjects, Special Subjects and Existence: QS_6E</i>	529
§3	<i>Quantified Significance Logic with Leibniz Identity: $QS_6E \approx$</i>	533
§4	<i>Contextually Defined Definite Descriptions in $QS_6E \approx$</i>	537
§5	<i>The Logic of Classes and Relations in $QS_6E \approx$</i>	538
§6	<i>Restricted Variables and Restricted Quantifiers</i>	541
7.10	Quantified Multiply Modal Significance Logics	545
7.11	Further Enlarged Quantified Significance Logics	553
§1	<i>Logics Based on an Any-Operator: ξS_6</i>	553
§2	<i>Definite Descriptions in $\xi S_6E \approx$</i>	558
§3	<i>Modalisation: ξIS_6, etc.</i>	560
§4	<i>General Intensional Logics, Context and Pragmatics</i>	563
7.12	Second-Stage Quantified Significance Logics	566
§1	<i>Interpretational Problems</i>	566
§2	<i>A Semantics for $2QS_6$</i>	576
§3	<i>The Postulational Theory for $2QS_6$</i>	577
§4	<i>Soundness, Completeness and Löwenheim-Skolem Theorems for $2QS_6$</i>	579
§5	<i>The Extended Assertoric Logic ES_6, and the Consistency of $2QS_6$</i>	584
7.13	Developments of Second-Stage Quantified Significance Logics	587
§1	<i>Further Second-Stage Logics</i>	587
§2	<i>The Weakness of Completeness: Extensions of $2QS_6$ by Abstraction</i>	589
§3	<i>Extensions of Second-Stage Logics</i>	592
§4	<i>Reductions of Second-Stage Logics to Many-Sorted Significance Logics</i>	598

§5 <i>Applications of Normally Interpreted Second-Stage Logics and their Extensions: Class Theory and Number Theory</i>	602
§6 <i>On Identity</i>	606
7.14 The Structure of Categories	614
BIBLIOGRAPHY	637

An index for both volumes is given in Volume 2.
