PART I. THE MIND-BODY PROBLEM

1. The Mind-Body Problem 15
by Wolfgang Köhler, Dartmouth College
2. Mind-Body, *Not* a Pseudoproblem 33
by Herbert Feigl, University of Minnesota
3. A Neural-Identity Theory of Mind 45
by Stephen C. Pepper, University of California, Berkeley
4. Doubts about the Identity Theory 62
by Richard B. Brandt, Swarthmore College
5. The Mind-Brain Problem 71
by Elmer Sprague, Brooklyn College
6. On Parapsychology and the Nature of Man 74
by J. B. Rhine, Duke University
7. Some Objections to Behaviorism 79
by H. H. Price, Oxford University
8. In Defense of Dualism 85
by Curt Ducasse, Brown University
9. Some Comments on Dimensions of Mind 90
by P. W. Bridgman, Harvard University
10. Theory-Categories in the Mind-Body Problem 93
by Abraham Edel, City College of New York
11. Whitehead's Concept of Organism and the Mind-Body Problem 97
by Howard W. Hintz, Brooklyn College

Contents

PART II. THE BRAIN AND THE MACHINE

- | | | |
|-----|---|-----|
| 12. | The Brain and the Machine (Summary)
<i>by Norbert Wiener, Massachusetts Institute of
Technology</i> | 109 |
| 13. | The Compleat Robot: A Prolegomena to
Androidology
<i>by Michael Scriven, Swarthmore College</i> | 113 |
| 14. | Comments on Key Issues
<i>by Satosi Watanabe, Experimental Laboratories, In-
ternational Business Machines Corporation</i> | 134 |
| 15. | Minds and Machines
<i>by Hilary Putnam, Princeton University</i> | 138 |
| 16. | On Consciousness in Machines
<i>by Arthur C. Danto, Columbia University</i> | 165 |
| 17. | Machines, Brains, and Models
<i>by Roy Lachman, University of Hawaii</i> | 172 |
| 18. | On Computers and Semantical Rules
<i>by R. M. Martin, University of Texas</i> | 174 |
| 19. | Love in a Machine Age
<i>by Paul Weiss, Yale University</i> | 177 |
| 20. | On the Reduction of Sentiment
<i>by Fritz Heider, University of Kansas</i> | 181 |
| 21. | A Pragmatic Note
<i>by Sidney Hook, New York University</i> | 184 |

PART III. CONCEPT-FORMATION

- | | | |
|-----|--|-----|
| 22. | Concept-Formation in Philosophy and Psychology
<i>by Stephen Toulmin, University of Leeds</i> | 191 |
| 23. | Concept-Formation in Philosophy and Psychology
<i>by B. F. Skinner, Harvard University</i> | 204 |
| 24. | Psychology and the Analysis of Concepts in Use
<i>by Ernest Nagel, Columbia University</i> | 208 |
| 25. | The Stratification of Concepts
<i>by N. R. Hanson, Indiana University</i> | 211 |
| 26. | A Comment on Toulmin
<i>by Sidney Morganbesser, Columbia University</i> | 214 |
| 27. | Are Complex, Considered Preferences Only
"Simulated"?
<i>by H. Van Rensselaer Wilson, Brooklyn College</i> | 222 |
| 28. | Wishing Won't—But Wanting Will
<i>by Gertrude Ezorsky, Hunter College</i> | 225 |
| 29. | A Spade Is a Spade, So Mind Your Language
<i>by Raziel Abelson, New York University</i> | 231 |
