

# CONTENTS

## CHAPTER ONE

§1.1: The Aims of this Book	1
§1.2: Primarily for the Student	3
§1.3: Primarily for the Instructor	4

## CHAPTER TWO

§2.1: The Fundamentals	7
§2.2: Truth Functions	8
§2.3: Sentence Letters and Symbols	9
§2.4: Metalanguage	11
§2.5: Well-Formed Formulas	12
§2.6: Exercises	13
§2.7: Simple Translation: Negation	14
§2.8: Simple Translation: Conjunction	15
§2.9: Simple Translation: Disjunction	17
§2.10: Simple Translation: the Horseshoe	18
§2.11: Simple Translation: the Triplebar	20
§2.12: Translating Complicated Sentences	21
§2.13: Exercises	24
§2.14: Defining the Operators	26
§2.15: Truth Tables	29
§2.16: Exercises	32
§2.17: Types of Formulas	32
§2.18: Truth-Functional Equivalences	35
§2.19: Exercises	39
§2.20: Arguments	39
§2.21: Exercises	43
§2.22: Translating Arguments	45
§2.23: Exercises	50
§2.24: Summary of Topics	51

## CHAPTER THREE

§ 3.1: What a Derivation Is	55
§ 3.2: Conjunction Introduction	57
§ 3.3: Conjunction Elimination	59
§ 3.4: Negation Elimination	61
§ 3.5: Disjunction Introduction	62
§ 3.6: Horseshoe Elimination	64
§ 3.7: Triplebar Elimination	66
§ 3.8: Exercises	67
§ 3.9: Constructing Derivations	68
§ 3.10: Exercises	79
§ 3.11: Assumptions	80
§ 3.12: Reiteration	82
§ 3.13: Horseshoe Introduction	84
§ 3.14: Triplebar Introduction	88
§ 3.15: Negation Introduction	91
§ 3.16: Disjunction Elimination	95
§ 3.17: Exercises	97
§ 3.18: More Derivation Construction	99
§ 3.19: Exercises	112
§ 3.20: Indirect Proof	113
§ 3.21: Exercises	121
§ 3.22: Categorical Derivations	123
§ 3.23: Exercises	126
§ 3.24: Summary of Topics	127

## CHAPTER FOUR

§ 4.1: Individuals and Predicates	133
§ 4.2: One-Place and Multi-Place Predicates	135
§ 4.3: Choices in Translation	137
§ 4.4: Exercises	138
§ 4.5: Quantifiers	139
§ 4.6: The Existential Quantifier	140
§ 4.7: The Universal Quantifier	142
§ 4.8: Using Both Quantifiers	144
§ 4.9: Exercises	147
§ 4.10: People and Things	148
§ 4.11: Exercises	149
§ 4.12: Identity	150
§ 4.13: Translation Problems and Domains	154
§ 4.14: Exercises	159
§ 4.15: Arguments in Predicate Logic	160
§ 4.16: Exercises	163
§ 4.17: Simple Interpretations	165
§ 4.18: Exercises	171
§ 4.19: Summary of Topics	174

## CHAPTER FIVE

§ 5.1: Predicate Logic Derivations	177
§ 5.2: Existential Quantifier Introduction	178
§ 5.3: Universal Quantifier Elimination	181
§ 5.4: Existential Quantifier Elimination	183
§ 5.5: Universal Quantifier Introduction	186
§ 5.6: Identity Introduction	190
§ 5.7: Identity Elimination	191
§ 5.8: Exercises	192
§ 5.9: Derivation Strategies	194
§ 5.10: Exercises	203
§ 5.11: More Derivation Strategies	204
§ 5.12: Exercises	215
§ 5.13: Categorical Derivations in Predicate Logic	217
§ 5.14: Exercises	220
§ 5.15: Summary of Topics	220

## CHAPTER SIX

§ 6.1: The Scope of the Text	223
§ 6.2: Existence and Translation Problems	224
§ 6.3: The Names of the Rules	224
§ 6.4: Unfamiliar Terminology and Symbols	225
§ 6.5: Additional Derivation Rules	228
§ 6.6: Replacement Rules	229
§ 6.7: Avoiding Reiteration	230
§ 6.8: Joint Denial and the Sheffer Stroke	231
§ 6.9: Consistency and Truth Trees	233

## INDEX

Technical Terms	239
-----------------	-----
