Foreword	9
1 Introduction: A Conceptual Overview	13
<i>Part I THE DEMOGRAPHIC BACKDROP</i>	20
2 Evolution of the Population Problem	20
<i>Four Demographic Eras</i>	20
<i>Arithmetic of Exponential Growth</i>	22
<i>Structure of the World's Population</i>	24
<i>UN Population Projections</i>	26
<i>Part II POPULATION GROWTH ON A FINITE PLANET</i>	28
3 Population, Affluence, and Economic Growth	28
<i>Population versus Affluence</i>	28
<i>Energy and Economic Growth</i>	34
<i>Domino Effect of Resource Scarcity</i>	36
<i>Technological Fixes</i>	37
<i>Growth Prospects in a World of Scarcity</i>	42
4 Growing Pressure on World Food Resources	43
<i>Affluence and the Demand for Food</i>	44
<i>New Constraints on Protein Supplies</i>	44
<i>Deep Trouble in Ocean Fisheries</i>	45
<i>Scarce Resources: Land, Water, and Energy</i>	47
<i>The Green Revolution: Opportunity Lost?</i>	50
<i>Growing Global Food Insecurity</i>	53
<i>Redefining Famine</i>	55
<i>Agronomic Potential of the Poor Countries</i>	60
5 Population Growth and Environmental Stress	62
<i>Environmentally Induced Illnesses</i>	62
<i>Endangered Species</i>	66
<i>Inadvertent Climate Modification</i>	67
<i>Eutrophication of Lakes and Streams</i>	68
<i>Soil Erosion and Abandonment</i>	69
<i>Ecological Undermining of the Food Economy</i>	71
<i>Discovering the Earth's Limits</i>	73

Part III COMMON DEPENDENCE ON SCARCE RESOURCES	75
6 Dependence on Common Global Resources	75
<i>A Common Hydrological Cycle</i>	75
<i>The Scramble for Marine Protein</i>	77
<i>Overloaded Waste Absorptive Capacity</i>	80
<i>Food: North American Dominance</i>	81
<i>Energy: Middle Eastern Control</i>	82
<i>Minerals: The Developing Countries</i>	83
<i>Consequences of Interdependence</i>	85
7 The Global Politics of Resource Scarcity	87
<i>Dividing the Pie</i>	87
<i>Access: The New Imperative</i>	89
<i>Collective Bargaining by Exporters</i>	90
<i>Rethinking Development: The Rich</i>	91
<i>Rethinking Development: The Poor</i>	94
<i>Stresses on the International System</i>	97
Part IV POPULATION GROWTH AND SOCIAL CONDITIONS	99
8 Population Growth and the Human Condition	99
<i>The Persistence of Hunger</i>	101
<i>Illiteracy: Five Centuries after the Printing Press</i>	104
<i>People without Jobs</i>	105
<i>From Countryside to City</i>	108
9 The Human Condition and Population Growth	112
<i>Socio-economic Progress and Fertility</i>	113
<i>Education and Fertility</i>	114
<i>Health Services and Fertility</i>	116
<i>Food and Fertility</i>	119
<i>Unemployment and Fertility</i>	120
<i>Economic Growth: Necessary but Not Sufficient</i>	122
<i>Development Means Reform</i>	124
<i>Summary</i>	126
Part V CONFRONTING THE POPULATION THREAT	128
10 Evolution of Population Policies	128
<i>National Population Policies</i>	129
<i>Family Planning Practices: A Global Overview</i>	131
<i>Pills, IUDs, and Voluntary Sterilization</i>	132
<i>Liberalization of Abortion Laws</i>	134

11 Growing Awareness of the Population Threat	138
<i>Declining Options</i>	139
<i>Difficult Choices and Trade-offs</i>	141
<i>Factors Influencing National Demographic Policies</i>	143
<i>Population Growth: Independent or Dependent?</i>	145
12 Population Strategy for a Finite Planet	148
<i>A Proposed Stabilization Timetable</i>	149
<i>Filling the Family Planning Gap</i>	159
<i>Commercial Distribution of Contraceptives</i>	160
<i>Creating Social Conditions for Fertility Decline</i>	162
<i>The Future Role of Women</i>	166
<i>Other Policies Affecting Family Size</i>	168
13 Only One Option	171
<i>At the Crossroads Again</i>	172
<i>Creating a Workable World Order</i>	174
<i>A Manageable Task</i>	178
<i>Whose Responsibility?</i>	181
<i>Role of The Communications Media</i>	183
<i>Toward a New Social Ethic</i>	184
<i>The Need for Leadership</i>	186
Suggested Readings	187
