1

Validity

1 Principles and Types	1
2 Patterns and Variables	8
3 Patterns in Descriptions and Principles	11
4 Formal and Material Logic	16
5 Truth and Validity	22
6 Logic, Practice, and Meaning	28

2

The Logic of Sentences

7 Provinces of Logic	31
8 Symbolism	33
9 System S	37
10 The Technique of Proof	46
11 Conditionals and Disjunctions	50
12 The Tabular Method	56

3

The Logic of Monadic Predicates

13	Monadic Predicate Variables and Uni- form Quantificational Formulas	63
14	Quantifiers	66
15	Categorical Sentences and Quantification	71
16	Syllogistic Logic and Predicate Logic	75
17	System P	79
18	Proofs Applying Basic P-Principles and Basic P-Rules	82

4

The Logic of Polyadic Predicates

19	Relational Sentences	90
20	Beyond Monadic Predicate Logic	93
21	Predicates	97
22	Substitution and Relettering	100
23	System R	103
24	Proofs Applying Basic R-Principles and Basic R-Rules	107
