

TABLE OF CONTENTS

INTRODUCTION

§0 Entering the Realm of Darkness	1
-----------------------------------	---

CHAPTER ONE. ELEMENTARY SYNTAX

§1 Elementary forms	7
§2 Modal opposition	13
2.1 Necessity- and possibility-forms	13
2.2 Necessity- and contingency-forms	15
§3 Transformation rules: Substitution, Permutation, <i>Reductio</i> and Cut	18
3.1 Substitution	18
3.2 Permutation	19
3.3 Indirect Reduction	20
3.4 Cut	21
§4 Transformation rules: Contraction, Ecthesis	23
4.1 Contraction	23
4.2 Ecthesis	25
§5 Transformation rules: modal <i>reductio</i>	26

CHAPTER TWO. AXIOMS

§6 Axioms: X and L axioms	31
6.1 X axioms	31
6.2 L axioms	32
6.2.1 Pure L axioms	32
6.2.2 L-X axioms	34
§7 Axioms: Q axioms	36
7.1 Pure Q axioms	38
7.2 Q-X axioms	40
7.3 Q-L axioms	40
§8 Axioms: Q', M and X' axioms	42
8.1 Q' axioms	42
8.2 M axioms	43
8.3 'Unqualified' assertoric axioms	45

CHAPTER THREE. THESES

§9 Necessity moods	47
9.1 Pure L theses	47
9.2 L-X theses	51
§10 Unampliated contingency moods	55
10.1 Q-X theses	55
10.2 Q-L theses	58
10.2.1 First Figure	58
10.2.2 Second Figure	59
10.2.3 Third Figure	62
§11 Ampliated contingency moods	63
§12 Possibility moods	67
12.1 First Figure	69
12.2 Second Figure	71
12.3 Third Figure	73
§13 'Unqualified' moods	78
13.1 First Figure	78
13.2 Second Figure	82
13.3 Third Figure	84

CHAPTER FOUR. REJECTIONS

§14 Necessity moods	86
14.1 Rejected L-X moods: First Figure	88
14.2 Rejected L-X moods: Second Figure	91
14.3 Rejected L-X moods: Third Figure	93
§15 Unampliated contingency moods	96
15.1 Rejected 1-premisses Q moods	96
15.2 Rejected 2-premisses Q-X moods	98
15.2.1 Rejected Q-X moods: First Figure	99
15.2.2 Rejected Q-X moods: Second Figure	103
15.2.3 Rejected Q-X moods: Third Figure	106
15.3 Rejected Q-L moods	107
15.3.1 Rejected Q-L moods: First Figure	108
15.3.2 Rejected Q-L moods: Second Figure	110
15.3.3 Rejected Q-L moods: Third Figure	112

§16 Ampliated contingency moods	115
16.1 Rejected Q' moods: First Figure	115
16.2 Rejected Q' moods: Second Figure	117
16.3 Rejected Q' moods: Third Figure	118
§17 Possibility and 'unqualified' moods	119

CHAPTER FIVE. FLAWS IN THE FABRIC

§18 Incidental mistakes	124
18.1 Barbara XLL and the Hintikka Formulae	124
18.2 Datisi XLL, Disamis LXL and necessarily awake bipeds	125
18.3 QiLo-1, QoLo-1 and necessarily non-white men	126
18.4 QaLaLo-2, QeLaLo-2 and negative conclusions from affirmative premisses	126
18.5 QaLe-3, QeLe-3 and necessarily sleeping horses	126
18.6 Barbara X'QM and 'unqualified' assertorics	128
§19 Substantial mistakes	128
19.1 QaLaXe-2 and negative conclusions from affirmative premisses	128
19.2 Barbara XQM and ephemeral contingencies	130
§20 Inconsistencies	132
20.1 Baroco XLL, Bocardo LXL and ecthesis	132
20.2 Q-opposition and Qi-conversion	135

CHAPTER SIX. SYSTEM *AL*

§21 Assertoric forms	139
§22 Necessity forms	141
22.1 Formal semantics	142
22.2 The Sun set Theorem	147
22.3 Validity of the axioms	150
22.4 Invalidity of the axiomatic rejections	151
22.5 Corollaries	154
§23 Adding <i>C</i> , <i>K</i> , <i>U</i> and <i>T</i>	156
§24 Reduction to assertoric syllogistic	163
§25 Alternative <i>de re</i> approaches: base	168
25.1 Existence assumptions	168
25.2 Sun set assumptions	169

§26 Alternative <i>de re</i> approaches: superstructure	176
26.1 Superstructure <i>A</i>	176
26.2 Superstructure <i>AA</i>	177
26.3 Superstructure <i>C</i>	182
26.4 Superstructure <i>CC</i>	187
§27 Alternative approaches: <i>de dicto</i> theories	190
27.1 Pure <i>de dicto</i> theories	190
27.2 Mixed <i>de dicto/de re</i> theories	191

CHAPTER SEVEN. SYSTEMS *AQ* AND *AQ'*

§28 Unampliated contingency-forms	194
28.1 Formal semantics	196
28.2 Validity of the axioms	197
28.3 Invalidity of the axiomatic rejections	197
28.3.1 First Figure	198
28.3.2 Second Figure	204
28.3.3 Third Figure	207
28.4 Corollaries	208
§29 Ampliated contingency-forms	212
29.1 Formal semantics	215
29.2 Validity of the axioms	215
29.3 Invalidity of the axiomatic rejections	216
29.4 Corollaries	218
§30 The relation of ampliated to unampliated systems	220
§31 Reduction to assertoric syllogistic	224
§32 Alternative <i>de re</i> approaches	226
32.1 Superstructure <i>A</i>	226
32.2 Superstructure <i>AA</i>	230
32.3 Superstructure <i>C</i>	238
32.4 Superstructure <i>CC</i>	244
32.5 Comparing superstructures	247
§33 Alternative approaches: <i>de dicto</i> theories	248

CHAPTER EIGHT. SYSTEM *AX'*

§34 Unqualified assertorics	251
§35 System <i>AX'</i>	257
§36 Reduction to assertoric syllogistic	259
§37 A reprieve for modal <i>reductio</i>	260

CHAPTER NINE. SINGULAR MODAL SYLLOGISTIC

§38 System <i>AEL5</i>	267
38.1 Syntactic base	267
38.2 Formal semantics	272
38.3 Provability of <i>AL</i> 's base	277
§39 Systems <i>AEQ5</i> and <i>AEQ'5</i>	282
§40 Alternative <i>de re</i> approaches	286
40.1 <i>A</i> -style singular modal syllogistic	288
40.2 <i>AA</i> -style singular modal syllogistic	291
40.3 <i>C</i> -style singular modal syllogistic	296
40.4 <i>CC</i> -style singular modal syllogistic	301
§41 Reduction to assertoric syllogistic	304
41.1 System <i>EQ0</i>	304
41.2 Alternative superstructures	308
41.3 Alternative bases	309

CHAPTER TEN. ESSENTIALISM

§42 Varieties of essentialism	314
42.1 Essentialism	316
42.2 Examples of essentialist theory	317
42.3 Aristotelian essentialism: generalities	318
42.4 Aristotelian essentialism: specifics	320
§43 The essentialism of the modal syllogistic	325
43.1 A metaphysical interpretation of the modal syllogistic	325
43.2 Interpreting the base	326
43.3 Interpreting the superstructure	328
43.3.1 <i>La</i> -propositions	328
43.3.2 <i>Le</i> -propositions	331
43.3.3 <i>Li</i> -propositions	332
43.3.4 <i>Lo</i> -propositions	333
43.3.5 <i>Q</i> -propositions	334
§44 Aristotle's static essentialism	335
§45 Aristotle's dynamic essentialism	342
§46 The metaphysics of unqualified assertorics	345
§47 Aristotelian vs. Platonic essentialism	348
§48 Conclusions	350
