

## TABLE OF CONTENTS

### INTRODUCTION 1

Logic and philosophy among the Jews in medieval Provence · Gersonides' life and writings · Gersonides' logical writings · The *Commentary on Logic* · The *Commentary on the Logical Questions* · The *Book of the Correct Syllogism* · Gersonides' logic: innovation within the bounds of tradition · (i) The interpretation of syllogistic · (ii) The defense of the fourth figure · (iii) The quantification of the predicate · (iv) Inferences with relational terms and prepositions · (v) The interpretation of modality · The sources of the logical writings and their subsequent influence · The edition of the *Correct Syllogism* · Summary of major revisions · Minor revisions · (i) Condensement and abridgement · (ii) Expansion and precision · (iii) Accuracy and correction · Group I (*C*, *V*, and *T*) · Group II (*P* and *L*) · The translation · Editorial additions and formalization

## THE BOOK OF THE CORRECT SYLLOGISM

### INTRODUCTION 53

#### TREATISE ONE

#### ON THE SIMPLE SENTENCE AND WHAT FOLLOWS FROM IT

#### CHAPTER ONE                      On the Types of Sentences 54

Consequences involving simple sentences · The division of sentences · The types of sentences employed in syllogisms · The definition of a sentence and the types of modalities · The possible · The essentially possible · The temporal assertoric · Objections to the Aristotelian-Averroist understanding of the assertoric · The rhetorical assertoric · The non-contingent · Two types of the possible: exclusive and non-exclusive · Two types of the necessary: essential and incidental · Two types of the assertoric · The proper interpretation of modal sentences

#### CHAPTER TWO                      On Retracted Sentences 63

Subject-retracted sentences · Predicate-retracted sentences

CHAPTER THREE                      On the Relative Extensions of Modally Qualified Terms 65

The relative extensions of simply modally qualified terms · The relations between retracted terms · An objection to the relation between possible and necessary terms

CHAPTER FOUR                      On Consequences by Virtue of the Part and the Whole 67

Consequences in which a certain thing is affirmed of the particular by virtue of its being affirmed of the universal · Conditions concerning such consequences · Consequences in which a certain thing is negated of the particular by virtue of its being negated of the universal · Consequences in which a certain thing is affirmed or negated of the universal by virtue of its being affirmed or negated of the particular · Consequences in which a certain thing is affirmed or negated of one term by virtue of its being affirmed or negated of an equal term · Consequences in which the universal and particular are predicated of a certain thing

CHAPTER FIVE                      On Consequences by Virtue of Subalternation and Obversion 75

Subalternation:  $Aab//Iab, Eab//Oab$  · Superalternation:  $Iab\backslash\backslash Aab, Oab\backslash\backslash Eab$  · Simple sentences to predicate-retracted sentences: (i)  $Aab//Ea\bar{b}, Iab//Oa\bar{b}$  · Simple sentences to predicate-retracted sentences: (ii)  $Eab//Aa\bar{b}, Oab//Ia\bar{b}$  · Predicate-retracted sentences to simple sentences: (i)  $Aa\bar{b}//Eab, Ia\bar{b}//Oab$  · Predicate-retracted sentences to simple sentences: (ii)  $Ea\bar{b}//Oab, Oa\bar{b}//Iab$  · Subject-retracted sentences to unqualifiedly retracted sentences and vice-versa · Simple sentences to subject-retracted sentences and vice-versa · Simple sentences to subject-retracted and to unqualifiedly retracted sentences when both terms exist:  $Eab//I\bar{a}b, Eab//O\bar{a}b$  · Subject-retracted sentences to simple sentences and to predicate-retracted sentences when both terms exist:  $E\bar{a}b//Iab, E\bar{a}b//Oab$

CHAPTER SIX                      On Consequences by Virtue of the Placement and Removal of Relational Particles and Prepositions 80

Placement of particles in universal affirmative simple sentences:  $Aab//Aa^Rb^R$  · Placement of particles in particular affirmative simple sentences:  $Iab//Ia^Rb^R$  · Removal of particles in universal and particular affirmative simple sentences:  $Aa^Rb^R\backslash\backslash Aab, Ia^Rb^R\backslash\backslash Iab$  · Placement of particles in universal negative simple sentences:  $Eab\backslash\backslash Ea^Rb^R$ ; predicate-retracted sentences · Removal of particles in universal negative simple sentences:  $Ea^Rb^R//Eab$  · Placement and removal of particles in particular negative simple sentences:

$Oab \setminus Oa^Rb^R, Oa^Rb^R // Oab$ ; predicate-retracted sentences · Placement and removal of particles in universal affirmative subject-retracted sentences:  $A \neg ab \setminus A \neg a^Rb^R, A \neg a^Rb^R \setminus A \neg ab$  · Placement and removal of particles in particular negative subject-retracted sentences:  $O \neg ab \setminus O \neg a^Rb^R, O \neg a^Rb^R \setminus O \neg ab$ ; unqualifiedly retracted sentences · Placement and removal of particles in universal subject-retracted negatives:  $E \neg ab // E \neg a^Rb^R, E \neg a^Rb^R \setminus E \neg ab$ ; unqualifiedly-retracted sentences · Conditions for the use of these consequences

## CHAPTER SEVEN                      On Consequences by Virtue of the Placement and Removal of Modes 86

Placement and removal of the particular mode for the universal mode in simple terms  
 · Placement and removal of the universal mode for the particular mode in simple terms  
 · Placement and removal of modes in retracted terms · Conditions for the use of these consequences

## CHAPTER EIGHT                      On Consequences by Virtue of the Conversion of Sentences 88

Conversion of simple sentences: (i)  $Aab // Iba, Iab // Iba$  · Conversion of simple sentences: (ii)  $Eab // Eba, Oab \setminus$ ; predicate-retracted sentences · Conversion of predicate-retracted and simple sentences to subject-retracted and unqualifiedly retracted sentences · Conversion of predicate-retracted sentences to subject-retracted sentences: (i)  $Aa \neg b // I \neg ba$  · Conversion of predicate-retracted sentences to subject-retracted sentences: (ii)  $Ia \neg b // I \neg ba$  · Conversion of predicate-retracted sentences to subject-retracted sentences: (iii)  $Ea \neg b // E \neg ba$  · Conversion of predicate-retracted sentences to subject-retracted sentences: (iv)  $Oab \setminus$ ; unqualifiedly retracted and simple sentences · Conversion of subject-retracted sentences to predicate-retracted sentences · Conversion of subject-retracted sentences to predicate-retracted sentences: (i)  $A \neg ab // I b \neg a, I \neg ab // I b \neg a$  · Conversion of subject-retracted sentences to predicate-retracted sentences: (ii)  $E \neg ab // E b \neg a, O \neg ab \setminus$ ; unqualifiedly retracted and simple sentences · Non-conversion of subject-retracted sentences to subject-retracted sentences: (i)  $A \neg ab \setminus X \neg ba, I \neg ab \setminus X \neg ba$  · Non-conversion of subject-retracted sentences to subject-retracted sentences: (ii)  $E \neg ab \setminus X \neg ba, O \neg ab \setminus X \neg ba$  · Non-conversion of subject-retracted sentences to unqualifiedly retracted sentences · Non-conversion of unqualifiedly retracted sentences to subject-retracted or unqualifiedly retracted sentences

CHAPTER NINE                      On the Modality of Consequences by Virtue of the  
Conversion of Sentences 95

Conversions in which the mode or particle remains with the term it previously modified

Conversions in which the particle or the mode is transferred to the term it did not previously modify · Conversion of modal sentences: the classification of modal sentences · (i) Subject necessary, predicate necessary · (ii) Subject possible, predicate possible · (iii) Subject possible, predicate necessary · (iv) Subject necessary, predicate possible · Conversion of necessary simple sentences · Conversion of necessary predicate-retracted sentences · Conversion of necessary subject-retracted sentences · Conversion of possible simple sentences · Conversion of possible predicate-retracted sentences · Conversion of possible subject-retracted sentences · Criticisms of Aristotle · Conversion of assertoric simple and predicate-retracted sentences · Conversion of assertoric subject-retracted sentences

CHAPTER TEN                      On the Extension of Terms in Sentences 114

The denotation of the subject and the predicate · The quantification of the subject and the predicate

TREATISE TWO

ON THE EXPLANATION WHEN THERE WILL BE A <VALID>  
SYLLOGISM FROM THE PREMISES AND WHEN THERE WILL NOT,  
AND WHAT WILL BE THE MODE <OF THE CONCLUSION> IN  
SIMPLE SYLLOGISMS, I MEAN, POSSESSING ONE MODE,  
AND THOSE MIXED WITH SEVERAL MODES

CHAPTER ONE                      On the Conditions of the Syllogism 117

The definition of the syllogism and syllogistic consequences · Syllogistic conditions: (i) one term repeated; two terms distinct · The division of syllogisms into figures and moods · Syllogistic conditions: (ii) the repeated term must be taken univocally in both premises and (iii) in its entirety in at least one premise · (iv) At least one premise must be universal, and (v) at least one premise affirmative · Conditional Syllogisms · Syllogisms with a particular negative premise in which all of the middle term is taken · Syllogistic conditions: (vi) unequivocality of terms in premises and conclusion · Syllogistic conditions: (vii) at least one universal premise

CHAPTER TWO                      On the Relationship between the Premises and the  
Conclusion of the Syllogism 129

The conclusion is in one of the premises potentially · The priority of the figures

CHAPTER THREE                    On the First Figure 132

Conditions of the first figure · Moods of the first figure

CHAPTER FOUR                    On the Second Figure 136

Conditions of the second figure · Moods of the second figure

CHAPTER FIVE                    On the Third Figure 139

Conditions of the third figure · Moods of the third figure

CHAPTER SIX                      On the Fourth Figure 142

Conditions of the fourth figure · Moods of the fourth figure · The necessity of positing  
a fourth figure · Contra Averroes' rejection of the fourth figure

CHAPTER SEVEN                  On Sorites 148

A syllogism possesses no more nor less than two premises

CHAPTER EIGHT                  On the Conditions of Syllogisms with Modes, Parti-  
cles, and Retracted Terms 149

Conditions of syllogisms with retracted terms or particles · Conditions of syllogisms  
with mode · The reduction of the middle term in syllogisms with retracted terms · The  
reduction of the middle term in syllogisms with particles · The reduction of the middle  
term in syllogisms with modes and temporal linkage

CHAPTER NINE                    On Syllogisms with Necessary Premises 155

The first figure · The second figure · The third figure · The fourth figure

CHAPTER TEN                     On Syllogisms with Assertoric Premises 162

The first figure · The second figure · The third figure · The fourth figure

CHAPTER ELEVEN	On Syllogisms with Possible Premises	165
	The first figure · The second figure · The third figure · The fourth figure · The critique of the Aristotelian position · A defense of Aristotle · Reply to this defense	
CHAPTER TWELVE	On Syllogisms Mixed from Necessary and Assertoric Premises	174
	The first figure · The second figure · The third figure · The fourth figure	
CHAPTER THIRTEEN	On Syllogisms Mixed from Necessary and Possible Premises	183
	The first figure · The second figure · The third figure · The fourth figure	
CHAPTER FOURTEEN	On Syllogisms Mixed from Assertoric and Possible Premises	186
	The first figure · The second figure · The third figure · The fourth figure
