INTRODUCTION TO THE TRANSACTION EDITION . . . ix

SECTION I

	PAGE
EXPLANATION OF MOVEMENT	I
CHAPTER I.—EXPERIMENTS CONCERNING THE NATURE OF AIR	3
§ 1. Pressure of the hands, p. 5.—§ 2. The air of the punctured ball, of the tube, and of the pump, p. 14.— § 3. The making of air and the movement of projectiles, p. 18.—§ 4. Centrifugal force, p. 25.	
CHAPTER II.—THE ORIGIN OF WIND AND OF BREATH	32
§ 1. The formation of wind, p. 33.—§ 2. Breathing, p. 52.	
CHAPTER III.—MOVEMENT OF THE CLOUDS AND THE HEAVENLY BODIES	60
§ 1. The movement of clouds, p. 61.—§ 2. The movement of the heavenly bodies, p. 73.	
CHAPTER IV.—WATER CURRENTS AND MOVEMENTS DUE TO WEIGHT	87
§ 1. The waves of the lake, p. 87.—§ 2. The current of rivers, p. 93.—§ 3. The suspension of the sun and moon, and the fall of heavy bodies to the ground, p. 103.	
CHAPTER V.—THE CHILD'S IDEA OF FORCE	114
§ 1. How the child explains movement, p. 114.— § 2. Definition of the idea of force, p. 120.—§ 3. Origin of the idea of force, p. 126.	

SECTION II

PREDICTION AND EXPLANATION	133
CHAPTER VI.—THE FLOATING OF BOATS	135
§ 1. First and second stages: boats float for moral or dynamic reasons, p. 136.—§ 2. Third stage: boats float owing to their own or to acquired movement and because they are light in relation to the total mass of water, p. 141.—§ 3. Boats float for static reasons, p. 150.	

	PAGE
CHAPTER VII.—THE LEVEL OF WATER	164
§ 1. First stage: the water rises because of the weight of the submerged body, p. 165.—§ 2. Second and third stages: the rôle of volume is understood and made explicit, p. 170.—§ 3. Conclusions, p. 173.—§ 4. Prediction and explanation of the phenomenon of communicating vessels in children from 8 to 12 years old, p. 176.	
CHAPTER VIII.—THE PROBLEM OF SHADOWS	180
§ 1. First stage: shadow is a substance emanating from the object and participating with night, p. 181.—Second stage: shadow is a substance emanating from the object alone, p. 186.—§ 3. Third stage: shadow is a substance which flees from light, p. 187.—§ 4. Conclusions, p. 190.	
SECTION III	
EXPLANATION OF MACHINES	195
CHAPTER IX.—THE MECHANISM OF BICYCLES	197
§ 1. First stage: the cause of the movement is synthetic, p. 199.—§ 2. Second stage: the various parts are necessary but unrelated, p. 205.—§ 3. Third and fourth stages: the search for contacts and mechanical explanation, p. 210.	
CHAPTER X.—THE STEAM-ENGINE	213
§ 1. First stage: the wheel turns because of the fire, p. 215.—§ 2. Second stage: the wheel turns because of the water, p. 220.—§ 3. Third stage: the wheel turns because of the steam, p. 223.	
CHAPTER XI.—TRAINS, MOTOR-CARS, AND AEROPLANES	226
§ 1. Steam-engines and motor-boats, p. 226.—§ 2. Motor-cars and aeroplanes, p. 230.—§ 3. Conclusions, p. 232.	
SECTION IV	
THE CHILD'S CONCEPTION OF REALITY AND CAUSALITY	237
SUMMARY AND CONCLUSION	237
§ 1. The child's reality, p. 241.—§ 2. Causality and the child, p. 258.—§ 3. The child's idea of law, p. 273.—§ 4. Assimilation and imitation, p. 281.—§ 5. Child logic, p. 291.—§ 6. Logic and reality, p. 301.	
INDEX OF NAMES	307
INDEX OF SUBJECTS	308
