Acknowledgements . . . . .	1
Conventions . . . . .	2
Preface . . . . .	3
Biographical sketch . . . . .	6
<b>1 Introduction</b>	<b>14</b>
<b>2 The methodology of the <i>Contributions</i></b>	<b>31</b>
2.1 Introduction . . . . .	31
2.2 Motivation . . . . .	31
2.3 Definition and division of mathematics . . . . .	32
2.4 The logic of the <i>Contributions</i> . . . . .	33
2.4.1 Elements . . . . .	34
2.4.2 An intrinsic order . . . . .	39
2.4.3 Indefinables and indemonstrables: epistemolog- ical considerations . . . . .	41
2.5 Bolzano and Kant . . . . .	45
2.6 Conclusion . . . . .	50
<b>3 Early work in real analysis</b>	<b>56</b>
3.1 Introduction . . . . .	56
3.2 Infinite series: the binomial theorem . . . . .	57
3.2.1 A sketch of Bolzano's proof for $n$ not a positive integer . . . . .	64
3.3 The "Purely Analytic Proof" . . . . .	69
3.3.1 The proof . . . . .	73
3.4 Historical remarks: Bolzano's influence . . . . .	84
3.5 Conclusion . . . . .	86
<b>4 Logic and methodology in the <i>Theory of Science</i></b>	<b>88</b>
4.1 Introduction . . . . .	88
4.1.1 Theory of Science: definition and organization . . . . .	90
4.2 Logical objects; propositions and terms . . . . .	93
4.2.1 Introduction . . . . .	93

4.2.2	Historical remarks: Aristotelian logic and some early modern counterparts . . . . .	94
4.2.3	Bolzano on logical objects . . . . .	107
4.2.4	Propositions and ideas . . . . .	115
4.3	Bolzano's Logic of Variation . . . . .	127
4.3.1	Variation . . . . .	127
4.3.2	Conceptual and logical form . . . . .	130
4.3.3	Some important relations in Bolzano's logic of variation . . . . .	140
4.4	Conclusion . . . . .	153
<b>5</b>	<b>Later mathematical studies</b>	<b>158</b>
5.1	Introduction . . . . .	158
5.2	Extracts from the Function Theory . . . . .	159
5.2.1	Continuity . . . . .	161
5.2.2	Three big theorems . . . . .	163
5.2.3	Uniform continuity . . . . .	166
5.2.4	Local maxima and minima; monotonicity and continuity . . . . .	173
5.3	The theory of measurable numbers . . . . .	177
5.3.1	Equivalent number concepts . . . . .	184
5.3.2	Repairing the theory of measurable numbers . . . . .	184
5.3.3	Bolzano's second proof of the Bolzano-Cauchy theorem . . . . .	186
5.4	The paradoxes of the infinite . . . . .	188
5.5	Conclusion . . . . .	196
<b>A</b>	<b>On Kantian Intuitions</b>	<b>198</b>
<b>B</b>	<b>The Bolzano-Cauchy Theorem</b>	<b>205</b>
	Selected Bibliography . . . . .	211
	Index of Names . . . . .	213
	Index of Subjects . . . . .	215
