Preface to the English Edition xi

Foreword 1

PART 1: PHYSICAL FACTS AND RELATED CONCEPTUAL PROBLEMS

CHAPTER 1	
Broad Overview	13
1-1. <i>A General Picture</i>	13
1-2. <i>Some Useful Definitions</i>	21
CHAPTER 2	
Overstepping the Limits of the Framework of Familiar Concepts	32
2-1. <i>Introduction</i>	32
2-2. <i>From Aristotle's Ontology to Descartes' Near Realism and Galilean Ontology</i>	32
2-3. <i>A Small Digression on Ontology</i>	34
2-4. <i>A Gradual Overstepping</i>	37
2-5. <i>Trajectories and Misleading "Pieces of Evidence"</i>	38
2-6. <i>On the Existence or Nonexistence of Hidden Things: Particles and Dirac's Sea</i>	41
2-7. <i>A "Fabricated" Ontology</i>	46
2-8. <i>Indications for What Follows</i>	48
CHAPTER 3	
Nonseparability and Bell's Theorem	51
3-1. <i>Correlation at-a-Distance: Bell's Theorem</i>	51
3-2. <i>Locality and the Bell Theorem</i>	58
3-3. <i>Discussion and Philosophical Implications</i>	71
CHAPTER 4	
Objectivity and Empirical Reality	89
4-1. <i>Strong Objectivity and Weak Objectivity (Alias Intersubjectivity)</i>	89

4-2. <i>The Measurement Problem and Empirical Reality</i>	101
4-3. <i>“Quantum Rules” and “von Neumann’s Chain”</i>	110
CHAPTER 5	
Quantum Physics and Realism	113
5-1. <i>Strong Objectivity and Realism</i>	113
5-2. <i>Intersubjective Agreement</i>	127
5-3. <i>Intersubjective Agreement and Empirical Reality</i>	127
5-4. <i>Conceptual Glimpses; Carnap, Quine, Primas; Relative Ontologies</i>	129
CHAPTER 6	
Universal Laws and the “Reality” Question	134
6-1. <i>The “Theoretical Framework” Notion</i>	134
6-2. <i>Antiuniversalism and “Realism about Entities”</i>	136
6-3. <i>“Pythagorism” (“Einsteinism”)</i>	142
6-4. <i>Remarks Concerning Two “Macrorealisms”</i>	145
6-5. <i>Quantum Mechanics as a Universal Theoretical Framework</i>	146
6-6. <i>Antirealism</i>	148
CHAPTER 7	
Antirealism and Physics; the Einstein-Podolsky-Rosen Problem; Methodological Operationalism	152
7-1. <i>“Value of a Quantum Physical Quantity” in the Antirealist Framework</i>	152
7-2. <i>Operationalism (Alias “Instrumentalism”)</i>	156
7-3. <i>On “Meaning” and “Prediction”</i>	166
CHAPTER 8	
Measurement and Decoherence, Universality Revisited	168
8-1. <i>Introduction</i>	168
8-2. <i>Decoherence</i>	177
8-3. <i>Decoherence and State Robustness</i>	189
8-4. <i>The Everett-Zurek Semirealist Approach</i>	190
8-5. <i>Universality Revisited</i>	192
CHAPTER 9	
Various Realist Attempts	196
9-1. <i>Introduction</i>	196
9-2. <i>On Our Intellectual Craving for Realism</i>	196
9-3. <i>The Broglie-Bohm Approach</i>	199
9-4. <i>The So-Called “Modal” Interpretation</i>	206

9-5. <i>The Heisenberg Representation: It Does Not, by Itself, Yield a Solution</i>	209
9-6. <i>Feynman's Reformulation and the Corresponding "Fabricated Ontology"</i>	211
9-7. A "Realism of Signification"	216
9-8. <i>Nonlinear Realist Quantum Theories</i>	220
9-9. <i>Outlook</i>	222
CHAPTER 10	
Schrödinger's Cat, Wigner's Friend, and Veiled Reality	225
10-1. <i>Introduction</i>	225
10-2. <i>Of Pointers and Cats</i>	225
10-3. <i>Wigner's Friend</i>	228
10-4. <i>The Veiled Reality Hypothesis</i>	236
PART 2: A PHILOSOPHICAL ANALYSIS	
CHAPTER 11	
Science and Philosophy	249
11-1. <i>The Impossible Split</i>	249
11-2. <i>Epistemology in the Late Twentieth Century</i>	250
11-3. <i>A Critical Glance at Some Claims</i>	255
11-4. <i>Physics and Linguistics</i>	258
11-5. <i>Sociologism</i>	261
11-6. <i>The End of Certainties?</i>	263
CHAPTER 12	
Materialisms	265
12-1. <i>Introduction</i>	265
12-2. <i>Dialectical Materialism</i>	265
12-3. <i>The So-Called "Scientific" Materialism</i>	266
12-4. <i>"Neomaterialism" and Physics</i>	272
12-5. <i>The Purely Philosophical Aspects of Neomaterialism</i>	276
12-6. <i>Materialism and Wisdom</i>	281
CHAPTER 13	
Suggestions from Kantism	282
13-1. <i>Introduction</i>	282
13-2. <i>A Look at Kantism</i>	282
13-3. <i>Facing the Refusal of the Independent Reality Notion</i>	291
13-4. <i>Kant and Our Contemporaries</i>	306

CHAPTER 14	
Causality and Observational Predictability	312
14-1. <i>Introduction</i>	312
14-2. <i>Causes and Laws</i>	312
14-3. <i>Determinism and Causality</i>	315
14-4. <i>Determinism and Chaos</i>	316
14-5. <i>Quantum Indeterminacy</i>	319
14-6. <i>Predictability and Reliability Revisited</i>	326
14-7. <i>The Influence Notion Revisited</i>	330
CHAPTER 15	
Explanation and Phenomena	333
15-1. <i>Introduction</i>	333
15-2. <i>The Notion of Explanation</i>	333
15-3. <i>Back to the “Explanatory Power of Predictive Rules” Question</i>	342
15-4. <i>Empirical Reality and Abstractions, Explanation, and Empirical Causality</i>	344
15-5. <i>The Rainbow Analogy</i>	347
15-6. <i>Removing the “Paradox of the Dinosaurs”</i>	351
15-7. <i>The “False Explanation” Question</i>	352
CHAPTER 16	
Mind and Things	354
16-1. <i>Empiricism, Positivism, and So On</i>	354
16-2. <i>Phenomenalism</i>	355
16-3. <i>Ambiguities about Innatism</i>	366
16-4. <i>Poincaré, Conventionalism, and Structural Realism</i>	368
CHAPTER 17	
Pragmatic-Transcendental versus Veiled Reality Approaches	376
17-1. <i>Introduction</i>	376
17-2. <i>Replies to Michel Bitbol’s and Hervé Zwirn’s Objections</i>	376
17-3. <i>The Pragmatic-Transcendental Approach</i>	396
17-4. <i>A Few Notes on Zwirn’s Approach</i>	402
CHAPTER 18	
Objects and Consciousness	405
18-1. <i>Introduction</i>	405
18-2. <i>Truth: Definitions and Criteria</i>	406
18-3. <i>Objects and “Orders,” or “Levels,” of Reality</i>	408
18-4. <i>A Few Remarks Concerning Sensations</i>	411
18-5. <i>On the Question of the Plurality of Minds</i>	426

CHAPTER 19	
The “Ground of Things”	429
19-1. <i>Introduction</i>	429
19-2. <i>Mystery, Affectivity, and Meaning</i>	429
19-3. <i>Do Things Have a “Ground”? Pro and Con Received Arguments</i>	434
19-4. <i>Some Consequences of the Evolution of Physics</i>	443
19-5. <i>The Veiled Reality Conception Reexamined</i>	449
APPENDIX 1	
The Bell Theorem	465
A. <i>Proof</i>	465
B. <i>A Simplified Proof</i>	470
C. <i>A Glance at the Experimental State of Things</i>	473
D. <i>Historical Comments and a Short Bibliography</i>	474
APPENDIX 2	
Consistent Histories, Counterfactuality, and Bell’s Theorem	477
APPENDIX 3	
Correlation-at-a-Distance in the Broglie-Bohm Model	483
<i>References</i>	485
<i>Name Index</i>	493
<i>Subject Index</i>	497
