

## CONTENTS

---

Introduction	vii
<i>Simon Conway Morris</i>	
1. Chance and Necessity in Evolution	3
<i>Richard E. Lenski</i>	
2. Convergent Evolution: A Periodic Table of Life?	17
<i>George McGhee</i>	
3. Life's Evolutionary History: Is It Determinate or Indeterminate?	32
<i>Karl J. Niklas</i>	
4. Evolution and Convergence: Some Wider Considerations	46
<i>Simon Conway Morris</i>	
5. Aspects of Plant Intelligence: Convergence and Evolution	68
<i>Anthony Trewavas</i>	
6. Convergent Evolution, Serendipity, and Intelligence for the Simple Minded	111
<i>Nigel R. Franks</i>	
7. Canny Corvids and Political Primates: A Case for Convergent Evolution in Intelligence	128
<i>Nicola S. Clayton and Nathan J. Emery</i>	
8. Social and Cultural Evolution in the Ocean: Convergences and Contrasts with Terrestrial Systems	143
<i>Hal Whitehead</i>	

9. The Illusion of Purpose in Evolution: A Human Evolutionary Perspective <i>Robert A. Foley</i>	161
10. Purpose in a Darwinian World <i>Michael Ruse</i>	178
11. Plumbing the Depths: A Recovery of Natural Law and Natural Wisdom in the Context of Debates about Evolutionary Purpose <i>Celia Deane-Drummond</i>	195
12. Purpose in Nature: On the Possibility of a Theology of Evolution <i>John F. Haught</i>	218
