

TABLE OF CONTENTS

Translators' Preface	VI
History of the Frege <i>Nachlaß</i> and the Basis for this Edition	IX

Gottlob Frege, Posthumous Writings

Logic	1
Boole's logical Calculus and the Concept-script	9
Boole's logical Formula-language and my Concept-script	47
[Dialogue with Pünjer on Existence]	53
[Draft towards a Review of Cantor's <i>Gesammelte Abhandlungen zur Lehre vom Transfiniten</i>]	68
On the Concept of Number	72
On Concept and Object	87
[Comments on Sense and Meaning]	118
Logic	126
The Argument for my stricter Canons of Definition	152
Logical Defects in Mathematics	157
On Euclidean Geometry	167
[Frege's Notes on Hilbert's ' <i>Grundlagen der Geometrie</i> ']	170
[17 Key Sentences on Logic]	174
On Schoenflies: <i>Die Logischen Paradoxien der Mengenlehre</i>	176
What may I regard as the Result of my Work?	184
Introduction to Logic	185
A brief Survey of my logical Doctrines	197
Logic in Mathematics	203
My basic logical Insights	251
[Notes for Ludwig Darmstaedter]	253
Logical Generality	258
[Diary Entries on the Concept of Number]	263
Number	265
Sources of Knowledge of Mathematics and the mathematical natural Sciences	267
Numbers and Arithmetic	275
A new Attempt at a Foundation for Arithmetic	278
Index	282
