Preface: The Problem of the Limits of Science in  
the Present Context IX

*Wenceslao J. Gonzalez*

Notes on Contributors XVI

## PART 1

### *Limits as Frontiers and as Confines*

Rethinking the Limits of Science: From the Difficulties Regarding the  
Frontiers to the Concern about the Confines 3

*Wenceslao J. Gonzalez*

The Uncertain Frontier between Scientific Theories and Metaphysical  
Research Programmes 31

*Juan Arana*

Cognitive Problems and Practical Limits: Computers and Our  
Limitations 42

*Nicholas Rescher*

## PART 2

### *Two Poles of Analysis: Language and Ethics*

Language and the Limits of Science 69

*Ladislav Kvasz*

Ethical Limits of Science, Especially Economics 94

*Gereon Wolters*

## PART 3

### *Epistemological Limits to Science*

Predicting and Knowability: The Problem of Future Knowledge 115

*Nicholas Rescher*

**The Limits of Future Knowledge: An Analysis of Nicholas Rescher's  
Epistemological Approach** 134

*Amanda Guillan*

**The Limits of Information Science** 150

*Antonio Bereijo*

**PART 4**

***The Limits from Inside and the Limits from Outside***

**Rescher and Gadamer: Two Complementary Views of the Limits of  
Sciences** 167

*Alfredo Marcos*

**The Obstacles to Scientific Prediction: An Analysis of the Limits of  
Predictability from the Ontology of Science** 183

*Amanda Guillan*

**Index of Names** 207

**Subject Index** 212
