

## OBSAH

<b>System Features of Science and Research Assessment</b>	5
1. The Status of Evaluation in Problem-Solving and Decision-Making	5
2. Assessment During Initial Stages of Scientific and Research Activities	14
3. Primary Decision and Start of Research Programmes	19
4. Assessment During and at the End of Scientific and Research Activities	22
Literature	29
<b>New Accents and Initiatives in Technology Assessment</b>	30
1. Changes in the Concept of Technology Assessment	30
2. Technology Assessment(TA) as a Permanent Guide to the Origin and Development of the World of Technology	36
3. Designing and Evaluating Acceptable Options of Technology Solution	42
4. Primary Decision-Making and Technology Assessment	44
5. Goal Orientation of Technology Solutions and Their Evaluation	48
Literature	54
<b>Goal Orientation of Science and Research Projects</b>	56
1. Lessons Drawn in the Field of Technology Projects	56
2. Goal Orientation of Cognitive Activities in Science and Research	62
3. Goal Orientation of Projects, Their Acceptability and Evaluation	68
4. Goal Orientation of Research Projects, Science Workshop and Its Environment	78
Literature	81
