

TABLE OF CONTENTS

| | |
|---|--------|
| PREFACE | xi |
| OVERVIEW | xv |
| NOTATIONAL CONVENTIONS | xxxiii |
| LIST OF SYMBOLS | xxxiv |
| LIST OF FORMAL DEFINITIONS OF EXAMPLES | xxxvi |
| I: MODELS AND STRUCTURES | 1 |
| I.0 Introduction | 1 |
| I.1 Models and Potential Models | 2 |
| I.2 Types and Structure Species | 6 |
| I.3 Set-Theoretic Predicates and Lawlikeness | 14 |
| I.4 Plausible Interpretations | 20 |
| I.5 Example: Decision Theory | 23 |
| I.6 Example: Collision Mechanics | 26 |
| I.7 Example: Classical Particle Mechanics | 29 |
| Bibliography | 34 |
| II: THEORY-ELEMENTS | 36 |
| II.0 Introduction | 36 |
| II.1 Cores and Intended Applications | 37 |
| II.2 Constraints | 40 |
| II.2.1 <i>Extensivity of Energy in Equilibrium Thermodynamics</i> | 41 |
| II.2.2 <i>Equality Constraint in Classical Mechanics</i> | 44 |
| II.2.3 <i>The General Notion of a Constraint</i> | 46 |
| II.3 Theoreticity, Partial Potential Models, and Links | 47 |
| II.3.1 <i>An Intuitive Idea of Theoretical Concepts</i> | 47 |
| II.3.2 <i>Intertheoretical Links Determining Non- Theoretical Terms</i> | 57 |

| | | |
|-----------|---|-----|
| II.3.3 | <i>An Informal Criterion of Theoreticity</i> | 62 |
| II.3.3.1 | <i>Spring Balance Determination of Weight in CPM</i> | 68 |
| II.3.3.2 | <i>Collision Determination of Mass in CCM</i> | 72 |
| II.3.4 | <i>A Formal Criterion of Theoreticity</i> | 73 |
| II.4 | <i>Theory-Cores Expanded</i> | 78 |
| II.5 | <i>Application Operators</i> | 79 |
| II.6 | <i>Intended Applications</i> | 86 |
| II.7 | <i>Idealized Theory-Elements and Empirical Claims</i> | 89 |
| | <i>Bibliography</i> | 93 |
| III: | SOME BASIC THEORY-ELEMENTS | 95 |
| III.0 | <i>Introduction</i> | 95 |
| III.1 | <i>Classical Collision Mechanics</i> | 96 |
| III.1.1 | <i>Potential and Actual Models of CCM</i> | 96 |
| III.1.2 | <i>Partial Potential Models of CCM</i> | 97 |
| III.1.3 | <i>Constraints for CCM</i> | 98 |
| III.1.4 | <i>The Theory-Element of CCM</i> | 99 |
| III.2 | <i>Relativistic Collision Mechanics</i> | 99 |
| III.2.1 | <i>Potential and Actual Models of RCM</i> | 99 |
| III.2.2 | <i>Partial Potential Models of RCM</i> | 100 |
| III.2.3 | <i>Constraints for RCM</i> | 101 |
| III.2.4 | <i>The Theory-Element of RCM</i> | 102 |
| III.3 | <i>Classical Particle Mechanics</i> | 103 |
| III.3.1 | <i>The Potential and Actual Models of CPM</i> | 103 |
| III.3.1.1 | <i>The Logical Status of Force in CPM</i> | 103 |
| III.3.2 | <i>The Partial Potential Models of CPM</i> | 105 |
| III.3.3 | <i>Constraints for CPM</i> | 105 |
| III.3.4 | <i>The Theory-Element of CPM</i> | 106 |
| III.4 | <i>Daltonian Stoichiometry</i> | 108 |
| III.4.1 | <i>The Potential Models of DSTOI</i> | 108 |
| III.4.2 | <i>The Models of DSTOI</i> | 114 |
| III.4.3 | <i>The Partial Potential Models of DSTOI</i> | 117 |
| III.4.4 | <i>Constraints for DSTOI</i> | 120 |
| III.4.5 | <i>Links for DSTOI</i> | 121 |
| III.4.6 | <i>The Theory-Element of DSTOI and Its Claim</i> | 122 |
| III.5 | <i>Simple Equilibrium Thermodynamics</i> | 127 |
| III.5.1 | <i>The Potential Models of SETH</i> | 127 |
| III.5.2 | <i>The Actual Models of SETH</i> | 132 |

TABLE OF CONTENTS

ix

| | | |
|---------|--|------|
| III.5.3 | <i>The Partial Potential Models of SETH</i> | 137 |
| III.5.4 | <i>Constraints for SETH</i> | 139 |
| III.5.5 | <i>Links for SETH</i> | 147 |
| III.6 | Lagrangian Mechanics | 149 |
| III.6.1 | <i>The Potential and Actual Models of LAG</i> | 149 |
| III.6.2 | <i>The Partial Potential Models of LAG</i> | 152 |
| III.6.3 | <i>Constraints and Links for LAG</i> | 152 |
| III.6.4 | <i>The Theory-Element of LAG</i> | 154 |
| III.7 | Pure Exchange Economics | 155 |
| III.7.1 | <i>The Potential and Actual Models of PEE</i> | 155 |
| III.7.2 | <i>The Partial Potential Models of PEE</i> | 159 |
| III.7.3 | <i>The Theory-Element of PEE</i> | 161 |
| | Bibliography | 165 |
| IV: | THEORY-NETS | 167 |
| IV.0 | Introduction | 167 |
| IV.1 | Specializations | 168 |
| IV.2 | Theory-Nets | 172 |
| IV.3 | Theory-Net Content and Empirical Claim | 177 |
| IV.4 | The Theory-Net of Classical Particle Mechanics | 180 |
| IV.5 | The Theory-Net of Simple Equilibrium Thermodynamics | 191 |
| | Bibliography | 203 |
| V: | THE DIACHRONIC STRUCTURE OF THEORIES | 205 |
| V.0 | Introduction | 205 |
| V.1 | Pragmatic Primitive Concepts | 210 |
| V.1.1 | <i>Historical Periods</i> | 211 |
| V.1.2 | <i>Historical Precedence</i> | 212 |
| V.1.3 | <i>Scientists</i> | 213 |
| V.1.4 | <i>Scientific Communities and Scientific Generations</i> | 213 |
| V.1.5 | <i>Scientific Propositional Attitudes</i> | 215 |
| V.2 | Theory-Evolutions | 216 |
| V.3 | The Evolution of CPM | 223 |
| V.4 | The Evolution of SETH | 234 |
| | Bibliography | 244 |
| VI: | INTERTHEORETICAL RELATIONS | 247. |
| VI.0 | Introduction | 247 |
| VI.1 | Global Intertheoretical Relations | 248 |

| | | |
|-----------|--|-----|
| VI.2 | Specialization and Theoretization | 250 |
| VI.3 | Types of Reduction | 252 |
| VI.3.1 | <i>The Reduction of Collision Mechanics to Classical Particle Mechanics</i> | 255 |
| VI.3.2 | <i>The Reduction of Rigid Body Mechanics to Classical Particle Mechanics</i> | 267 |
| VI.4 | A General Concept of Reduction | 275 |
| VI.5 | Empirical Equivalence | 284 |
| VI.5.1 | <i>The Empirical Equivalence of Lagrangian and Classical Mechanics</i> | 292 |
| VI.6 | Equivalence | 295 |
| VI.7 | Reduction, Language, and Incommensurability | 306 |
| | Bibliography | 320 |
| VII: | APPROXIMATION | 323 |
| VII.0 | Introduction | 323 |
| VII.1 | Types of Approximation | 325 |
| VII.2 | Intratheoretical Approximation | 328 |
| VII.2.1 | <i>Blurs on Two Levels</i> | 334 |
| VII.2.2 | <i>Admissible Approximations</i> | 342 |
| VII.2.3 | <i>The Approximative Version of an Empirical Claim</i> | 352 |
| VII.2.4 | <i>Approximations in Theory-Nets and Theory- Evolutions</i> | 357 |
| VII.3 | Intertheoretical Approximation | 364 |
| VII.3.1 | <i>Approximative Reduction</i> | 371 |
| VII.3.1.1 | <i>The Case of the Kepler-Newton Relationship</i> | 374 |
| | Bibliography | 383 |
| VIII: | THE GLOBAL STRUCTURE OF SCIENCE | 386 |
| VIII.0 | Introduction | 386 |
| VIII.1 | Theory-Holons | 387 |
| VIII.2 | Theoreticity Reconsidered | 391 |
| VIII.3 | Graphs and Paths | 393 |
| VIII.4 | Local Empirical Claims in Global Theory-Holons | 394 |
| VIII.5 | Intended Applications Reconsidered | 404 |
| VIII.6 | Foundationalism Versus Coherentism | 411 |
| | Bibliography | 423 |
| | NAME INDEX | 425 |
| | SUBJECT INDEX | 428 |
